**HEARING: Abrasive Blasting Regulations to be adopted**

Inspector Waden provided an overview of the proposed regulations to the Board. Dr. Walsh requested that a statement "or at the discretion of the Health Compliance Officer" be added in Section 6.1 at the end of the sentence. Dr. Walsh also requested that more information regarding the disposal of lead contaminated waste in Section 8.5 and 8.6 be provided to the Board. Additional discussion among Board members was directed towards the definition of abrasive blasting vs. power sanding, the title of the regulation, the permitting process and proof of EPA certification, and the fee structure for permits and penalties. The Board determined that the Board of Health staff should edit the proposed regulations to include their comments/concerns, change the title of the Regulations to "Paint Removal", and re-advertise another public hearing with the new title. The Board unanimously voted to hold another meeting on Wednesday July 27, 2011.
