RE: DPW Construction Project Update - 2015 Water Main Rehabilitation Project

As part of the Town's ongoing Capital Improvement Program, the Department of Public Works, has been coordinating the rehabilitation of various water mains throughout Town. Work has consisted of installation of temporary bypass lines, water line removal/replacement and replacement of water service laterals. This work began in the Spring of 2015 -- please find an update on the progress of this work below:

Work Location	Status	Comments
Alpine Street Area	Ongoing	The new 8" ductile iron water main, isolation control valves, & fire hydrant have been successfully installed on Alpine Street, Morris Avenue & Branch Street. Beginning next week, new copper service laterals will be installed between the new main and sidewalk curb-stop box to service each residence.
Summer Street (King St. - #409 Summer St.)	Outstanding	Work is Scheduled for Late July.
High Haith Road (Longfellow Rd. - Spring St.)	Outstanding	Work is Scheduled for Early August.

During this time, expect lane restrictions, parking restrictions, and construction vehicle presence. The Engineering Division also asks that motorists comply with the following:

- Please adhere to the No Parking postings within the work limits.
- Please proceed with caution & observe all directional signs & barriers.
- Please comply with instructions from Traffic Safety Detail Officers to facilitate the safe flow of traffic in an orderly manner.
- Please be aware of heavy equipment entering and exiting the site.
- Please drive with caution and reduced speeds within the work zone limits.

As always, the contractor will make every effort to keep inconveniences to a minimum and traffic police safety details will be present during the entire work process.

We apologize for any inconvenience or resulting delays and thank you for your cooperation and understanding. If you should have any questions about the project, please do not hesitate to contact the Engineering Division at engineering@town.arlington.ma.us.
