FOR RELEASE: July 27, 2015

2015 ROAD REHABILITATION PROJECTS

As part of the Town's ongoing Capital Improvement Program, the Department of Public Works will be rehabilitating various roads throughout Town in 2015. These projects have been determined utilizing information from the most recent pavement condition survey, criteria from the Pavement Management System as well as contract and construction scheduling input. This work will be coordinated and monitored by the Department of Public Works and performed by Town's paving contractor. Work will typically consist of road milling, leveling, casting adjustments, and/or re-surfacing. Work will begin as soon as the necessary contract documents are finalized and in conjunction with the contractor's schedule. Work will continue throughout the 2015 construction season and will resume again in Spring 2016. Flyers will be distributed to notify residents in the specific areas prior to work commencing. The following list indicates the street location for the upcoming projects. These dates are subject to change due to weather conditions and scheduling changes. The project areas listed below are tentative and may change due to scheduling or budgetary reasons. Updates will be posted online at arlingtonma.gov/dpwprojects.

- Glen Ave. – completed
- Hayes St. - completed
- Maynard St. - completed
- Mystic Lake Dr. - completed
- Orchard Ter. - completed
- Rangeley Rd. - completed
- Sherborn St. - completed

During construction residents in these areas should expect some on-street parking restrictions to allow for construction activities and equipment. The contractor will make every effort to keep inconveniences to a minimum and traffic police details will be present to aid in driveway access/egress and roadway safety. Residents are requested to observe on-street roadway postings and detour signs. Traffic message boards will be used to aid traffic management efforts when available. Residents traveling through these areas should plan accordingly, allow for travel delays, and should consider alternative routes when possible.

The Department of Public Works would like to thank residents for their cooperation during these improvement projects. If you have any questions please contact Pete Lento at 781-316-3323 or Wayne Chouinard at 781-316-3320.
