Assessment/Offsets	The amount the State automatically deducts from Local Aid to cover town-shared expenses. The primary items that make up this amount are charter school and MBTA assessments.
Bond Anticipation Note (BAN):	Short term debt instrument used to generate cash for initial project costs and with the expectation that the debt will be replaced later by permanent bonding. Typically issued for a term of less than one year, BANs may be re-issued for up to five years, provided principal repayment begins after two years (MGL Ch. 44 §17). Principal payments on school related BANs may be deferred up to seven years (increased in 2002 from five years) if the community has an approved project on the Massachusetts School Building Authority (MSBA) priority list. BANs are full faith and credit obligations.
Capital (Includes Debt Service):	The Town's capital improvements program policies call for the allocation of approximately 5% of the general fund revenues to the capital budget. This is exclusive of dedicated funding sources such as enterprise funds, grants, and Proposition 2 ½ debt exclusion projects.
Cherry Sheet:	The official notification by the Massachusetts Commissioner of Revenue to municipalities and school districts of estimated state aid to be paid and charges to be assessed over the next fiscal year. As the state budget process unfolds updated local aid proposals are posted. Cherry Sheets are issued once the state budget is enacted by the Legislature and approved by the Governor.
Chapter 70 School Aid Cherry Sheet:	Chapter 70 refers to the school funding formula created under the Education Reform Act of 1993 by which State Aid is distributed through the Cherry Sheet to help establish educational equity among municipal and regional school districts.

- Chapter 90 Highway Funds:** State funds derived from periodic transportation bond authorizations and apportioned to communities for highway projects based on a formula under the provision of MGL Ch. 90 §34. The Chapter 90 formula comprises three variables: local road mileage (58.33%) as certified by the Massachusetts Highway Department (MHD), local employment level (20.83%) derived from the Department of Employment and Training (DET), and population estimates (20.83%) from the US Census Bureau. Local highway projects are approved in advance. Later, on the submission of certified expenditure reports to MHD, communities receive cost reimbursement to the limit of the grant. See DOD/DLS website.
- Collective Bargaining:** The process of negotiating workers' wages, hours, benefits, working conditions, etc., between employer and some of all of its employees, who are represented by a recognized labor union.
- Debt Exclusion:** This amount represents the voter-approved amount that is used to pay for the construction of two new elementary schools. The state reimburses the town 65% of debt payment. The debt exclusion in the budget is the net amount (less state reimbursement) that is levy to the taxpayers on an annual basis.
- Designated Unreserved Fund Balance:** A limitation on the use of all or part of the expendable balance in a governmental fund.
- Enterprise Funds:** An Enterprise fund, authorized by MGL Ch. 44 §53F ½, is a separate accounting and financial reporting mechanism for municipal services for which a fee is charged in exchange for goods or services. It allows a community to demonstrate to the public the portion of total costs of a service that is recovered through user charges and the portion that is subsidized by the tax levy, if any. With an Enterprise fund, all costs of service delivery—direct, indirect, and capital costs—are identified. This allows the community to recover total service costs through user fees if it chooses. Enterprise accounting also enables communities to reserve the "surplus" or net assets unrestricted generated by the operation of the enterprise rather than closing it out to the general fund at year-end. Presently, Arlington has enterprise funds for Council on Aging Transportation, Recreation, Ed Burns Arena, Water & Sewer, and Youth Services

- Equalized Valuations (EQVs):** The determination of an estimate of the full and fair cash (FFCV) of all property in the Commonwealth as of a certain taxable date. EQVs have historically been used as a variable in distributing some State aid accounts and for determining county assessments and other costs. The Commissioner of Revenue, in accordance with MGL Ch. 58 §10C, is charged with the responsibility of biannually determining an equalized valuation for each city and town in the Commonwealth.
- Excess Levy Capacity:** The difference between the levy limit and the amount of real and personal property taxes actually levied in a given year. Annually, the Board of Selectmen must be informed of excess levy capacity and their acknowledgement must be submitted to DOR when setting the tax rate.

It typically includes actual receipts in excess of revenue estimates and unspent amounts in departmental budget line-items for the year just ending, plus unexpended free cash from the previous year. After the books are closed for the year, potential available funds' balances are submitted to the State for certification. Certification of Free Cash is generally submitted to the Department of Revenue in the fall with final certification in late fall or early winter. It is strongly recommended that free cash be spent on one-time expenditures since free cash itself is a one-time revenue source.
- GASB 34:** A major pronouncement of the Governmental Accounting Standards Board that establishes new criteria on the form and content of governmental financial statements. GASB 34 requires a report on overall financial health, not just on individual funds. It requires more complete information on the cost of delivering services and value estimates on public infrastructure assets, such as bridges, roads, sewers, etc. It also requires the presentation of a narrative statement analyzing the government's financial performance, trends and prospects for the future.

It also allows parcels to be identified and sorted on the basis of certain specified criteria. The system can integrate assessors' property data, water and sewer line networks, wetlands, floodplains as well as other data.
- Levy Ceiling:** A levy ceiling is one of two types of levy (tax) restrictions imposed by MGL Ch. 59 §21C (Proposition 2 ½). It states that, in any year, the personal property taxes imposed may not exceed 2 ½ percent of the total full and fair cash value of all taxable property.
