2013 STORMWATER AWARENESS SERIES

SESSION 1 – PERMEABLE PAVERS

The Town of Arlington Engineering Division is hosting a Stormwater Awareness Series open to residents of the Town of Arlington and the general public.

The series is designed to educate residents on Stormwater and the impacts on runoff, water quality, flood control and prevention, erosion and other stormwater related impacts within the Town of Arlington. Information will be provided by stormwater professionals for the purpose of increasing awareness of these issues within the Town and to provide information for residents to help understand how the surrounding environment affects, and impacts, the local water resources and what can be done to reduce these impacts.

The next presentation is scheduled to be held on April 9th 7:00 – 8:00 p.m. in the Selectmen's Hearing Room, Arlington Town Hall, 2nd floor. The session will include a presentation discussing *Permeable Pavers* followed by a question and answer session related to the presentation session topics.

Session #1: April 9, 2013
7:00 p.m. – 8:00pm
Title: Permeable Pavers
Speaker: Larry Nicolai
Presented by: Ideal Concrete Block Company

Larry Nicolai is the Senior Vice President of Ideal Concrete Block Company, Inc., a New England based manufacturer of concrete masonry products. Larry is the founding chairman of the Interlocking Concrete Pavement Institute where he continues to serve on the Board of Directors. He also was the chairman of the ICPI Foundation for Education and Research for 3 years and currently serves as a Trustee. Larry serves as a director on the board of the New Concrete Masonry Association Board and holds the position of Chairman-elect.

Larry is a certified instructor and has authored curriculum for the construction of interlocking concrete pavements and segmental retaining walls. The presentation will discuss how infiltration is a highly effective method in mitigating the effects and the advantages permeable pavers offer homeowners as an on-site solution – from selection to installation.

The following is an outline of Mr. Nicolai's presentation topics:

- Introduction to permeable pavers
- Residential on-site solutions
- Infiltration effects
- advantages
- costs
- maintenance

Future Presentations

The 2013 Arlington Stormwater Series is planning additional sessions throughout the year. Below is the remaining 2013 schedule. Updated information on these sessions will be sent by email via Town of Arlington Notices and posted online at arlingtonma.gov/engineering.

Information on past sessions, including links to video of past sessions and presentations can also be found in the Stormwater section at arlingtonma.gov/engineering.

Presentations Dates:

Session 2 – June 11, 2013
Session 3 – August 13, 2013
Session 4 – October 8, 2013
Session 5 - December 10, 2013
