2016 Road Rehabilitation Project Summary

As part of the Town's ongoing Capital Improvement Program, the Department of Public Works will be rehabilitating various roads throughout Town. These projects have been determined utilizing information from the most recent pavement condition survey and criteria from the Pavement Management System. This work will be coordinated and monitored by the Department of Public Works and performed by Town's paving contractor; D&R Paving. Work will typically consist of road milling, leveling, casting adjustments, and/or re-surfacing. Additional road maintenance work to take place will include thin overlay surface treatment, crack sealing and infrared pavement patching. Work will begin in spring 2016 and will last throughout the 2016 construction season. Flyers will be distributed to notify resident in the specific areas prior to work commencing. The following list indicates the street location for the upcoming projects. These dates are subject to change due to weather conditions and scheduling changes. This list is tentative and may change due to scheduling or budgetary reasons. Updates will be posted online at arlingtonma.gov/dpwprojects.

Project areas include the following streets:
