

PARDON ME!

Could I trouble you for a drink of water?

I am a new tree, and I am very thirsty!

Please fill this green bag once a week. The water will slowly drip to my roots.

Thanks! I really appreciate it and I will return the favor someday!

Mature Trees

Moderate the climate around your home and reduce your heating/cooling costs

Provide healthy air to breathe by converting carbon dioxide to oxygen

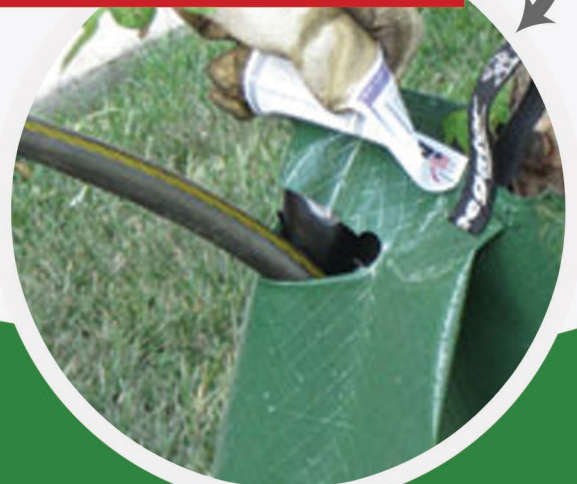

Increase property values

Reduce street noise

Instructions:

- ▶ Insert hose directly into the bag, fill until the bag is full.
- ▶ Please do not fertilize. Weeding is not necessary but is helpful.

Fill this green bag once a week
