- (c) The bidder must have financial and physical resources of sufficient scope to assure prompt and satisfactory performance in the execution of the total conditions of this specification and in the production, furnishing and delivery of all equipment specified so as not to delay the progress of the work.
- (d) Each bidder shall submit with his bid a list of five (5) contracts of similar size and scope to that specified herein which have been completed and accepted. Any bid not including said list of contracts may be considered incomplete and may be rejected without further recourse. ARTICLE 8. RESPONSIBILITY AND LIABILITY TO RELATED CONTRACTORS

The Successful Bidder shall be fully liable for any and all additional charges to the Owner resulting from changes required to accommodate any item of equipment not furnished in strict accordance to the specifications approved by the Owner.

ARTICLE 9. CHANGES IN EQUIPMENT OR WORK

Samples submitted by a Successful Bidder may be impounded by the Owner for the period of the contract for comparison of materials delivered to the job site to assure they conform in every respect to the approved samples submitted. Materials delivered that fail to conform to the approved samples shall be rejected.

The Successful Bidder shall submit to the Interior Designer a complete set of finish samples with actual finishes applied to actual material for true rendition. Printed or otherwise reproduced facsimiles where color and texture may not be true are not acceptable. Actual samples of fabric and other special and/or miscellaneous materials, shall be submitted in the same manner and in appropriate sizes.

ARTICLE 13. EQUALITY OF MATERIALS

All proprietary names or products used for items listed in the specifications, are shown for purposes of description only and are not intended, nor should they be interpreted, to be an endorsement of any particular proprietary item. The words "or equal" are understood to follow all names of proprietary products, trade names, catalog numbers and detailed descriptions and shall be interpreted to mean any material, article, assembly or system, which in the opinion of the Owner is at least equal in quality, durability, appearance, strength and design to the equipment specified and will perform at least equally the functions imposed by the general design. Any and all expense necessary to prove to the awarding authority the equality of items offered as equal to the specific item or specified names shall be borne exclusively by the bidder submitting any proposed substitutions. The words "or equal" shall not be construed to permit substantial departure from the requirements of the specifications. The provisions of Massachusetts General Laws shall govern.

Each bidder shall clearly identify each individual item he proposes to furnish in which a deviation occurs, in any respect, from that which is specified, by submitting with his bid a complete itemized list identifying each and every item wherein a deviation is proposed. The bidder shall, upon request and without cost to the Owner furnish documents, independent laboratory tests, and similar authenticated proof material to substantiate that the item proposed in his bid is "equal to" or "exceeding" that which is specified. Bids offering deviations shall be submitted in strict conformance to the requirements and procedures described herein, and failure to comply shall be just cause for rejection of the bid or the enforcement of supplying the item or items of equipment exactly as specified, without exception or recourse.

If any items bid are other than "as specified", the vendor MUST:

1. Provide comprehensive specifications of the alternate item bid with their bid package. Finish selection matches for alternates must be acknowledged.
2. Failure to do any of the above will constitute a "No Bid" item.

ARTICLE 14. AWARDING OF CONTRACTS

Award of "Extended Price" subcategories:
