

Rethinking Plastic Recycling

Changes in world recycling markets make the news, but what do we need to know in Arlington, specifically? Join our discussion with DPW recycling coordinator Charlotte Milan about the seemingly endless variety of plastics and how this packaging affects curbside recycling. What do the triangles with numbers inside really mean, and do we have to pay attention to that? What kind of use reduction and reuse activities can we expect to see in town? Bring all your recycling questions and suggestions.

Thursday, January 30th at 7pm
Robbins Library Community Room

Refreshments will be available.

Free and open to the public.
