

Program Description

Program Description

The Commonwealth of Massachusetts began providing services for veterans following the Revolutionary War. In 1861, the Legislature formalized Chapter 115 and established the Department of Veterans' Services. By State law, each community in the Commonwealth is required to maintain a Veterans' Service Department to provide benefits to veterans and dependents.

Benefits are available to veterans through the state's veteran benefits program (Chapter 115) as well as from federal agencies (Veterans Affairs) and other local resources. State benefits provide financial and medical assistance for veterans and dependents. Additional financial services for food, shelter, clothing, and housing are also available. Bonuses and annuities are available to veterans that provided wartime service. State annuity payments are made to 100% service connected disabled veterans and Gold Star survivors. Support services are provided for military funerals and resources, educational assistance, employment assistance, and emergency and long-term housing assistance.

The Veteran Service Officer (VSO) is trained and certified by the state Department of Veterans' Services in accordance with regulations set forth in the VALOR Act II of 2014. In addition to managing state level benefits, the VSO assists veterans in filing applications seeking service connected disability compensation as well as seeking federal pensions for non-service connected medical pensions. Additionally, the department provides support and direction to veterans seeking access to the VA Healthcare System.

Budget Statement

Over the past 24 month period, there has been a decrease in the number of veterans and dependents seeking state Chapter 115 Benefits, as the numbers of World War II veterans and surviving spouses seeking benefits continue to dwindle. We anticipate a decrease in veterans seeking Chapter 115 benefits, as Korean and Vietnam era veterans/dependents become our primary veteran population in need of support services.

Per the Department of Veterans' Services (DVS) statistics, the number of active cases (veterans and or dependents currently receiving state Chapter 115 benefits in Arlington) has decreased from 56 to 40 cases. The average monthly expenditures for Chapter 115 Veteran Benefits for FY 2017 were \$25,726. The average monthly expenditures for Chapter 115 Veteran Benefits for FY 2018 decreased to an average of \$20,500 per month.

It is important to note that the Commonwealth of Massachusetts reimburses Arlington a minimum of 75% of all approved expenditures for Chapter 115 Veteran Benefits. All requests for emergency services as well as other special services such as housing services are reimbursed at 100%.

In addition to managing the Chapter 115 benefits program, the Director has seen a steady increase in the number of veterans and dependents seeking federal Veterans Affairs (VA) benefits and services through service connected disability claims and pensions. According to the most recent VA statistics, 303 Arlington veterans and dependents receive tax-free VA benefits totaling \$398,797 per month.
