

ARTICLE 21 VOTE/PUBLIC REMOTE PARTICIPATION To see if the Town will vote to establish parameters for interactive, simultaneous remote participation by members of the public in meetings of all public bodies in the Town of Arlington; or take any action related thereto. (Inserted at the request of Elizabeth Dray and ten registered voters)

The goal is to continue to allow public participation in town meetings beyond the pandemic and the governor's emergency order. The ability to participate remotely has increased public engagement in town meetings and made them more accessible to residents of all physical abilities. Passage of this warrant would allow that engagement and accessibility to continue.
