### TOWN CLERK

The Town Clerk is assisted by the Assitant Town Clerk, two Senior Clerk/Typists, and the Registrar of Voters. This dedicated team provides a wide and evolving range of services to residents, employees, and officials.

Records births, deaths and marriages with the Commonwealth and provides certified copies to the public by request.

Licenses dogs.

Issues business certificates by request.

Permits raffles, bazaars, and underground tanks.

Accepts for official recording documents such as Zoning Board of Appeals decisions, Redevelopment Board decisions on special permits, amendments to traffic rules and orders, and legal claims against the Town.

Certifies Town Meeting actions and submits bylaw changes for review by the Attorney General.

Records financial statements, utility pole locations, street permits, drain layer, blasting, and other surety bonds covering contractors.

Administers oaths of office to elected or appointed officials and to police officers when they are promoted; provides required forms and materials regarding open meeting law, conflict of interest law, Town policy on discrimination, harassment, and sexual harassment.

Posts copies of meeting agendas on the bulletin board outside the office.

Collects fines for violations of Town bylaws and refers overdue fines for such citations to the Middlesex District Court.

Administers all elections, election audits and election recounts.

The Clerk's Office, like the rest of Arlington, was impacted by the novel coronavirus (COVID-19) throughout the year. The office recorded fewer marriages because Town Hall was closed to the public and it took time to develop a plan to meet with couples

safely to administer the necessary oaths. Residents were able to make requests for vital records by mail or using the Town Hall Depository box, but this system created some delays and inconveniences. Systems that support online requests and payments for many routine functions will be implemented in 2021.

A new Town Clerk was elected and sworn in to her duties on June 15, 2020, which was also the day of the Annual Town Meeting, held for one session on the Arlington High School field to allow for safe spacing. Most of the articles on the warrant were postponed so there was time to develop a method for a virtual Town Meeting that allowed for debate and accurate recording of all votes. A virtual Special Town Meeting was held for five sessions from November 16 to December 2 via Zoom and an online platform developed by Lexington Selectman Joe Pato. Attendance with the virtual format was very high and over the five nights the Moderator and Town staff were able to develop new processes based on feedback from Town Meeting Members.

There were four elections in 2020 and three of them were held under new rules the state legislature passed to allow voting by mail outside of the traditional absentee voting law. The Presidential Primary in March was held just before Town Hall was closed and turnout was very similar to 2016. Delaying the Town Election from April to June provided time for the Town to mail postcards to all registered voters inviting them to request a ballot in the mail. Despite multiple changes to procedures and aging voting machines, election workers and Town Hall staff from multiple departments worked hard to enable voting in person and by mail. Some precincts voted in new locations when the traditional locations were closed due to the pandemic and the Secretary of State's Elections Division was issuing new regulations and software updates almost weekly. A recount petition was filed for three races and on July 9, 2020 a hand count of all the ballots was performed in the Town Hall Auditorium with election workers and observers from the campaigns, supervised by the Board of Registrars. The original results were confirmed with minor changes

Fees Collected	2018	2019	2020
Marriage Intentions	\$5,460	\$4,560	\$3,150
Miscellaneous Certificates	\$54,803	\$55,577	\$47,225
Gasoline Permits/Pole Locations Underground Tanks	\$552	\$226	\$0 \$81
Miscellaneous Books/CD's	\$100	\$55	\$0
Misc.Licenses,Permits & Violations	\$7,173	\$2,384	\$17,406
Filing Fees/Special Permits	\$2,394	\$2,526	\$5,288
Dog Licenses & Late Fees	\$33,821	\$36,419	\$29,452
TOTAL	\$104,303	\$101,747	\$102,602

to the vote totals for the candidates.

The State Primary election to choose the candidates for each party on the November ballot brought new challenges. The State mailed postcards to registered voters to request ballots for the State Primary and the State Election and at the same time did a significant update to the software clerks use to record the requests. The most critical upgrade was to add barcode scanning functions so voter requests for a ballot could be entered by scanning the barcode on the postcard and only making a few keystrokes to confirm which election the vote was intended. By the time the new software was useable. Arlington had received several thousand postcards which needed to be scanned into the system that would generate the mailing labels. And more postcards and forms arrived daily. Town Hall staff from multiple departments offered help several hours a week, but the Clerk's Office needed consistent help. Since parking rules were suspended in Arlington, the Clerk's Office was able to add the three Parking Control Officers on a temporary basis and they worked most of August and on Primary Election Day.

After the Town Election and the State Primary, Arlington voters were familiar with voting by mail as an option and around 22,000 ballots were mailed and returned for the State Election in November. This created enormous logistical challenges because the ballot kits arrived from the State's printers on September

Election worker and Parking Control Officer take a quick photo break. Left to right: Gabriela Solis, Bruce Fisher, Carol Marquis, Willie Smith

30th and each ballot needed three labels affixed to various envelopes before they could be mailed. With the continued help of the Parking Control Officers, the lessons learned in August, and the fact that most of the 22,000 voters requesting a ballot were already in the mailing database, the Clerk's Office was able to mail the bulk of the ballots by October 15, which gave voters reasonable time to receive and return ballots before November 3. The ballot drop boxes were used in all three elections and greatly reduced the burden on the post office which became more of a concern in October with the high volume of ballots. Although there were

some boxes vandalized in other communities, Arlington had no issues, still the State asked all towns to close and lock their boxes on Halloween night.

Early voting in Town Hall lasted for two weeks. Despite the construction blocking the front entrance, the modified layout and long hours meant we had no long lines. Adjustments based on advice from members of the Commission on Disabilities throughout the first week were welcome and signage and additional accessible parking were added. The vast majority of voters who chose to vote in person did so at Town Hall during the last two weeks of October. In Massachusetts, all ballots received in the mail, by drop box, or from early voting locations are sorted by precinct and counted on Election Day along with ballots cast that day, unless the state creates exceptions.

Arlington opted to take advantage of a new rule allowing for advancing processing of ballots for the State Election. Approximately 12,600 ballots were scanned and the votes recorded and saved until Election Day when they were combined with results from the tabulators in the precincts and the unofficial results were released around 10:30 pm on Election Night. This extra step meant election workers in the precincts had time to assist in-person voters and put the rest of the mailed ballots though the tabulators while still maintaining lower staffing in each precinct to keep things as safe as possible. Because Arlington had 28,759 ballots to count and new tabulators it would have been a challenge to scan that many ballots on one day.

Vital Statistics	2018	2019	2020
Births	506	473	446
Deaths	357	391	395
Marriages	184	165	105

The final chapter of the 2020 election story was Arlington Precinct 14's selection for a routine election audit. After every state election, 3% of all Massachusetts precincts are chosen at random to do a hand count of the ballots. The audit report asks for a side-by-side comparison of the votes for each candidate in contested races and one of the ballot questions and a count of the number of times recount workers noted non-standard markings on the ballot. A person can easily interpret the voter intent if one name is circled, but the machine can only record votes where the oval is filled in. The audit took about six hours with four election workers reviewing the ballots. The final analysis was that the small differences were due to non-uniform ballot markings.

Above are the vital statistics of the Town for 2020, which are recorded at this time. It should be noted, however, that the summaries of births and deaths are incomplete, inasmuch as records thereof pertaining to Arlington residents are still being received by our office from the cities and towns where these events occurred.

### **Acknowlegements**

The Clerks' Office would like to recognized former Town Clerk, Stephanie Lucarelli, for her 30 plus years of service to the Town of Arlington. Serving as Town Clerk since 2011 and as Assistant Town Clerk before that, Ms. Lucarelli was diligent in her duties and friendly to all who visited or called the office. She will be missed and we wish her well in her retirement.

### REGISTRAR OF VOTERS

Conducts the annual Town census by mail.

Updates lists of voters, potential jurors, True List of Persons, children eligible for Kindergarten in the next year.

Registers voters.

Certifies signatures on nomination papers or petitions.

Conducts a random drawing to determine the order of names on the ballots for local elections.

Assists the Town Clerk hand counting provisional ballots after Election Day.

Voter registration in Massachusetts continues to evolve and in 2020 the Registrar was confronted with a number of unusual circumstances. The special legislation that controlled elections in 2020 specified that voter registration should remain open longer than usual, which meant that the office was registering voters at the same time that early voting in person at Town Hall was

being conducted. This required daily updates to the voter list and constant communication with the Election Warden for early voting. In addition, the temporary election rules allowed ballots that were mailed or voted in-person during early voting to be counted even if the voter died before Election Day. However many of the state systems assume voters are automatically deleted when the Registrar is notified of a death, so extra work and careful monitoring was required to preserve every eligible vote.

The final and most confounding issue around voter registration was created when a voter submitted a ballot in their current town, which could be a few weeks before the election. The ballot would be checked in and the online Track My Ballot system would report the ballot was received and was eligible to be counted on Election Day. However, if the voter moved to a new town and registered to vote there after the voter registration deadline, the new town could not give them a ballot for the current election and the previous town couldn't count their ballot because their name no longer appeared on the voter list.

On a more positive note, a number of newly sworn citizens were registered during early voting and new citizens are granted an exception to the usual registration deadline and the Registrar of Voters was processing registrations for these new voters until the morning before the election. The sound of applause from the Town Hall auditorium when someone voted for the first time was an inspiring reminder of the important work the Registrar and Clerk's Office perform.

The number of voters in the five political parties:

Registered Voters	2018	2019	2020
Total Registered	31,116	31,555	32,383
Democrats	14,160	14,290	14,661
Republicans	1,674	1,627	1,523
Unenrolled	15,045	15,383	15,969
Libertarian	52	66	55
Green Rainbow		27	23
Miscellaneous desig	gnations are	not include	ed

# **QUESTION 1 – MOTOR VEHICLE REPAIR**

This proposed law would require that motor vehicle owners and independent repair facilities be provided with expanded access to mechanical data related to vehicle maintenance and repair. A YES VOTE would provide motor vehicle owners and independent repair facilities with expanded access to wirelessly transmitted mechanical data related to their vehicles' maintenance and repair.

A NO VOTE would make no change in the law governing access to vehicles' wirelessly transmitted mechanical data.

# **QUESTION 2 – RANKED-CHOICE VOTING**

Ranked-choice voting would be used in primary and general elections for all Massachusetts statewide offices, state legislative offices, federal congressional offices, and certain other offices beginning in 2022. Ranked choice voting would not be used in elections for president, county commissioner, or regional This proposed law would implement a voting system known as "ranked-choice voting," in which voters rank one or more candidates by order of preference. district school committee member. Under the proposed law, votes would be counted in a series of rounds. In the first round, if one candidate received more than 50 percent of the first-place votes, that candidate would be declared the winner and no other rounds would be necessary. If no candidate received more than 50 percent of the first-place votes, then the candidate or candidates who received the fewest first-place votes would be eliminated and, in the next round, each vote for an eliminated candidate would instead be counted toward the next highest ranked candidate on that voter's ballot.

Ranked-choice voting would be used only in races where a single candidate is to be declared the winner and not in races where more than one person is to be elected. Under the proposed law, if no candidate received more than 50 percent of first-place votes in the first round, the rounds of ballot-counting necessary for ranked-choice voting would be conducted at a central tabulation facility. A YES VOTE would create a system of ranked-choice voting in which voters would have the option to rank candidates in order of preference and votes would be counted in rounds, eliminating candidates with the lowest votes until one candidate has received a majority. A NO VOTE would make no change in the laws governing voting and how votes are counted.
