Christian Klein
Chair
Town of Arlington Zoning Board of Appeals
51 Grove Street
Arlington, MA 02476

Dear Mr. Klein:

In response to the question about addressing the visibility of the utility pole that exists in the west driveway, off Massachusetts Avenue, we have identified two high-visibility products that we will propose installing on the pole. One is a padded foam wrap and the other is a hard-plastic wrap. Each would encircle the bottom of the pole, as shown in the image below.

Verizon will need to review and approve these options, as they own the utility poles on the site, however we feel that either of these products will enhance the visibility of the pole.

High-Visibility Padded Column/Pole Wrap

High-Visibility Hard Plastic Column/Pole Wrap

Sincerely,

Pat Nihan
