

Arlington Housing Plan

Help shape the future of housing in Arlington!

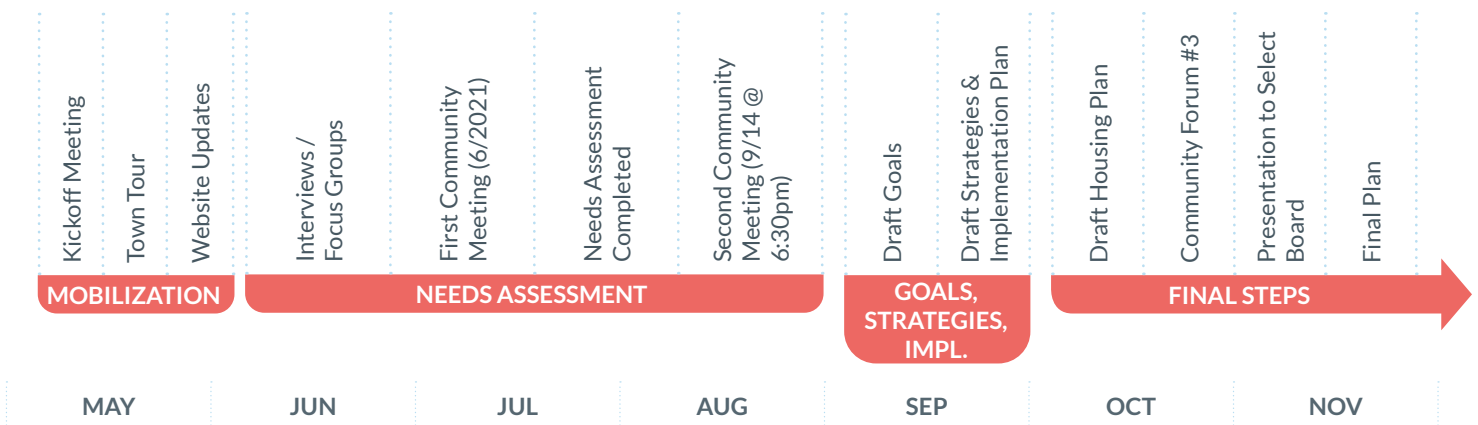

PLAN OVERVIEW

The Arlington Housing Plan is a five-year plan that will update the Town's 2016 Housing Production Plan. The Housing Plan will:

- update the Town's vision and strategy for providing housing that serves a range of needs;
- address the diverse housing needs for a range of household and housing types, including housing for seniors and families;
- be both data-driven and informed by the community through a series of engagement opportunities; and
- include a comprehensive needs assessment, affordable housing goals, and strategies for how to achieve those goals through policy and zoning changes.

Arlington Housing Plan

Help shape the future of housing in Arlington!

HOW WILL ARLINGTON USE THE HOUSING PLAN?

Town officials will consult the Housing Plan when making determinations about zoning and policy amendments for consideration by Town Meeting and when reviewing citizen petitions, particularly as they relate to zoning, land use, housing development, and preservation. The Housing Plan will guide Town Boards' development of and amendments to local policies, projects, and programs. The plan will also serve as a resource for understanding local housing needs, community demographics, as well as long-term, inclusive objectives.

WHO IS INVOLVED?

Arlington's Housing Plan Implementation Committee (HPIC) and the Department of Planning and Community Development (DPCD) are working with Barrett Planning Group, LLC and Horsley Witten Group to facilitate the planning process. The HPIC and DPCD collaborate with community experts—you!—to ensure input from the community is incorporated into the final plan.

GET INVOLVED!

Inclusive and comprehensive public engagement helps ensure the Housing Plan both reflects an authentic community-wide vision and is implementable. This requires your input!
