Sustainable Arlington monthly meeting minutes 6/18/13

Attendees: David Landskov, Shelly Dein, Charlotte Milan, Dave Haas, Janice Pare, Michael Wolfson, Glenn Koenig, Elizabeth Karpati, Gail McCormick

Minutes from the previous meeting were approved.

Shelly Dein reported for the Energy Working Group committee that the Town has hired a part-time energy manager and that they are on implementing the second Green Communities Act grant.~ They have checked out the appropriate Town buildings for solar installation. The Thompson school will likely be the next installation.

Brucie Moulton has been putting a calendar on our website.

Gail McCormick reported that the Steering Committee's letters to the chairs dealing with the three fracking bills are ready to be sent.

Charlotte Milan reported that the Soak Up The Rain project should have its kickoff in the fall and that it will probably be a 1-1 year campaign.~ Discussion centered on whether or not SA should bring up climate change as part of the campaign.

It was suggested that we should set another Master Planning committee meeting.~ An email will be sent to see if more people would like to be involved in the committee.

It was suggested that we might use the Food Recovery Project as our story for the True Story Theater performance that will involve Sustainable Arlington.~ The Theater group likes the idea and it was well received by the SA group present at this meeting.

The July SA meeting will be held as a barbeque at Charlotte Milan's house on 7/10 at 6 p.m.

Glenn Koenig talked about his videos of the community collection day and how he would like to distribute them.
