

**ARTICLE 12**  
**SINGLE USE PLASTIC WATER BOTTLE REGULATION**  
**(ART.\_\_\_\_, ATM – 04/25/22)**

**SECTION 1. Purpose and Intent**

The Town of Arlington (“Town”) recognizes that the use and disposal of single use plastic water bottles have significant negative impacts on the marine and land environment, and to public health, including but not limited to:

1. Contributing to the plastic pollution of the land environment, waterways and oceans;
2. Contributing to the harm and premature death of marine animals through ingestion of microplastics;
3. Posing a health risk to humans, including through ingestion of hormone disruptors such as phthalates that leach into plastic water bottles, inhalation of toxic emissions from burning plastic bottles in incinerators, and ingestion of microplastics in the food chain;
4. Exacerbating climate change through the use of millions of gallons of oil every year for the manufacture of single use water bottles in the U.S.

The purpose of this bylaw is to protect the environment and public health through reducing solid waste and unnecessary strains on recycling resources, minimizing litter, reducing the Town’s carbon footprint and climate change impacts, preserving local waterways, and protecting the health of Arlington residents and visitors by reducing the sale and disposal of single use plastic water bottles.
