## Program Year 47 Substantial Amendment

The Town of Arlington is amending its 2021-2022 Annual Action Plan, covering the period July 1, 2021 to June 30, 2022, (Program Year 47) to reprogram economic development funds to respond to the need for additional housing improvement funds. This Executive Summary provides an explanation of the Substantial Amendment. The full Substantial Amendment can be reviewed at this link: <https://www.arlingtonma.gov/cdbg>. All changes are marked in red font (to indicate information from the original Annual Action Plan that the Substantial Amendment updates) or blue font (to reflect the new program and related information that the Substantial Amendment will enable).

### Economic Development Funds

The Department of Planning and Community Development originally planned to implement a small business grant and technical assistance program during Program Year 47. These economic development programs were instead supported through American Rescue Plan Act (ARPA) State and Local Fiscal Recovery Funds (SLFRF) exceeding the amount available through CDBG, leaving \$350,000 in CDBG funds to be reprogrammed.

### Affordable Housing Funds

The Arlington Housing Authority's (AHA) Hauser Building, which has 144 units and is home to 177 residents, has an outdated fire alarm system in need of replacement. The project to update the system was prompted by a tragic fire in another AHA-owned building. AHA currently has over \$500,000 committed to the project from the Massachusetts Department of Housing and Community Development Formula Funding. Allocating \$350,000 to this project will enable this project to occur without a reduced scope, and will ensure a safe, suitable, and healthy living environment for Arlington senior citizens. The project meets the national objective of Low/Mod Limited Clientele, as it is a housing activity serving exclusively individuals who earn incomes below 80% of the Area Median Income. The funds provided to AHA will be in the form of a grant.
