Contract for
Pavement Marking Services

Invitation for Bid

#23-18

TOWN OF ARLINGTON
DEPARTMENT OF PUBLIC WORKS
INVITATION TO BID

The Town of Arlington invites sealed bids, pursuant to M.G.L. c.30, §39M, for

23-18 Pavement Marking Services

Bids will be received until **10:00 A.M., Thursday, April 13, 2023** at the Office of the Town Manager/Purchasing Department, 730 Massachusetts Ave, Arlington, MA 02476, at which time they will be publicly opened and read aloud.

The work under this contract consists of all equipment, labor, material and services to install pavement markings, symbols and/or lane striping on various roads within the Town of Arlington. Pavement markings to be utilized shall be reflectorized multi-component epoxy resin traffic paint at various locations as designated by the Arlington Department of Public Works (DPW).

Bid documents are available for viewing and downloading on the Town's website at www.arlingtonma.gov/purchasing. Bids must be submitted on the forms provided therein and in a sealed envelope marked on the outside with the bidder's name, address, and phone number and with the words **Bid # 23-18 Pavement Marking Services**. No bid will be accepted after the time and date specified.

A bid deposit in the amount of five per cent (5%) of the bid amount and payable to the Town of Arlington shall be submitted with each bid. Bid deposits shall be in the form of (a) a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, or (b) a bid bond in a form satisfactory to the Town, with a surety company qualified to do business in the Commonwealth of Massachusetts

The Town of Arlington will award the contract to the lowest eligible and responsible bidder. The Town Manager reserves the right to accept or reject any and all bids, wholly or in part, or to waive minor informalities in any or all bids, if it be in the public interest so to do.

Minimum Wage Rates, as determined by the Director of the Department of Labor Standards of the Executive Office of Labor and Workforce Development under the provisions of M.G.L. c.149 §26 to 27H, apply to this project. The schedule of wage rates applicable to this contract is included in the bid documents.

The successful bidder will be required to provide

- a Certificate of Insurance demonstrating current coverage of the type and amounts set forth in the bid documents, and
- a Labor and Materials or Payment Bond in the amount of 50% of the contract total.

Questions regarding this Invitation to Bid should be directed to the Town of Arlington's Purchasing Agent at mdenatale@town.arlington.ma.us.

TOWN OF ARLINGTON

Town Manager

March 30, 2023

I **INSTRUCTIONS TO BIDDERS**

A. COMPLEMENTARY DOCUMENT

1. The Invitation for Bid, included herewith, is complementary to this document and shall be carefully reviewed by bidders for specific instructions not repeated herein.

B. STATUTES REGULATING COMPETITIVE BIDDING

1. Bidding procedures and award of contract shall be in accordance with the provisions of M.G.L. c.30, §39M.
2. In the event of any discrepancy or inconsistency between the provisions of the bid or contract documents and the statutes referenced hereinabove, the provisions of said statutes shall govern. In such event, the application of all remaining provisions not in conflict with any circumstance other than that in which the conflict occurs shall not be affected thereby.

C. BIDDER'S QUALIFICATIONS

1. No individual or firm may submit a bid unless it includes, with the bid form, a list of at least three (3) references from similar projects completed in the last five (5) years.
2. The Town Manager will reject bids when required to do so by Massachusetts General Laws. In addition, the Town Manager reserves the right to waive any informalities in bidding and to reject any and all bids if he deems it to be in the public interest so to do. The Town Manager reserves the right to reject any bid if he determines that such bid does not represent the bid of a person or firm competent to perform the work as specified, or if fewer than three bids are received, or if bid prices are not acceptable without further competition.

D. INTERPRETATION OF DOCUMENTS: NOTIFICATION OF ERRORS

1. Bidders are urged to notify the Town of any and all errors and discrepancies found in the bid and contract documents.
2. Bidders requiring interpretation or clarification of the bid and contract documents shall make a written request to the Purchasing Agent at mdenatale@town.arlington.ma.us. The Town will answer such requests if received at least six (6) days prior to the date of the bid opening.
3. Interpretations and clarification of the bid and contract documents will be made by Addendum which will become part of the bid and contract documents. The Town will not be held accountable for any oral instruction.

E. EXAMINATION OF BID AND CONTRACT DOCUMENTS

1. Each bidder shall carefully examine the bid and contract documents to obtain a thorough understanding of the work of her/his bid in addition to the work of related trades. In addition, each bidder shall personally visit the site to thoroughly acquaint her/himself with the conditions as they exist thereon.
2. Failure of any bidder to thoroughly examine the bid and contract documents or to visit and examine the site or to familiarize her/himself with local conditions under which the work must be performed shall in no way relieve her/him of any obligation with respect to her/his bid or of any responsibility assigned to her/him under the contract.

F. MODIFICATION AND WITHDRAWAL OF BIDS

1. Modification or withdrawal of bids will be permitted after submission of said bids provided that clearly written and readily understandable instructions are received by the Town Manager in writing prior to the time established for the opening of bids. No bid may be withdrawn after that time, except as otherwise provided herein or by law.
2. No bid may be withdrawn for a period of thirty (30) days, Saturdays, Sundays and legal holidays excluded, after actual date of bid opening.

G. ADDENDA

1. Designer's interpretations shall be in the form of Addenda to the bid and contract documents. Failure to receive such Addenda shall in no way relieve any bidder from the execution of its provisions. All bidders are cautioned to verify the number of Addenda that have been issued and to secure any needed copies from the Town before submitting a bid.
2. Bidders shall acknowledge each and every Addendum in the spaces provided on the bid form; failure of a bidder to do so may result in rejection of the bid.

H. BID FORM

1. Bids must be submitted on the forms attached hereto. The bid forms may be removed and submitted separately from the other documents.
2. All blank spaces on the bid form must be filled in and all entries must be made in ink or typewritten. Bidders must bid on each item. Where space is provided, sums shall be expressed in both words and figures. In case of a discrepancy between the two, the written words shall govern.
3. No interlineations, additions, alterations or erasures shall be made on the forms.

I. ALTERNATES

1. Not applicable.

J. SUBMISSION OF BIDS

1. The bid form shall be properly executed and enclosed with a bid deposit equal to five percent (5%) of the value of the total bid in a sealed envelope plainly marked on the outside with the name and address of the bidder and the words **Bid #23-18 Pavement Marking Services** along with the bidder's name, business address, and phone number.
2. If the bid is mailed, the aforementioned sealed envelope shall be enclosed in a second envelope marked on the outside with the same information above and mailed to the place of the bid opening, as stipulated in the Invitation for Bid. Mailed bids must be received before the time scheduled for opening of bids.

K. BID DEPOSITS

1. The bid deposit shall be submitted in the amount specified in the Invitation for Bid and in the form of (a) a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company and payable to the Town of Arlington, or (b) a bid bond in a form satisfactory to the Town, with a surety company qualified to do business in the Commonwealth of Massachusetts, and conditioned upon the faithful performance by the principal of the agreements contained in the bid. Return of bid deposits will be in accordance with the provisions of the applicable Massachusetts General Laws.
2. Bid deposits of all general bidders, except those of the three lowest responsible and eligible general bidders, shall be returned within five days, Saturdays, Sundays and legal holidays excluded, after the opening of the general bids. The bid deposits of the three lowest responsible and eligible general bidders shall be returned upon the execution and delivery of the general contract or, if no award is made, upon the expiration of the time prescribed in the applicable Massachusetts General Laws for making an award; except that, if any general bidder fails to perform her/his agreement to execute a contract and furnish any performance or payment bonds required herein, her/his bid deposit shall become and be the property of the Town, as liquidated damages.

L. PAYMENT BOND

1. In accordance with M.G.L. c.149, §29, the selected contractor will be required to submit a Labor and Materials or Payment bond, in the amount of fifty percent (50%) of the contract sum, from a surety company qualified to do business under the laws of the Commonwealth and approved by the Town.

M. FOREIGN CORPORATIONS

1. Attention of bidders is called to M.G.L. c.30, §39L, as amended, under which an Awarding Authority may not enter into a contract with a foreign corporation (defined as a corporation that has been established, organized, or chartered under laws other than those of the Commonwealth of Massachusetts), nor approve a foreign corporation as a sub-contractor, unless said foreign corporation has filed with the Authority a certificate of the State Secretary stating that the corporation has complied with requirements of M.G.L. c.156D §15.03 and stating the date of such compliance.

N. AWARD OF CONTRACT

1. The Contract shall be awarded to the lowest responsible and eligible bidder, as provided under M.G.L. c.30, §39M.
2. The Town reserves the right to reject general bids in accordance with the provisions of M.G.L. c.30, §39M. In addition, the Town may consider informal and may reject any bid which is not prepared and submitted in accordance with all requirements of the bid documents, or which contains erasures, alterations, additions, errors or irregularities of any kind, or which contains proposed prices for any class or item of work which is, in the judgment of the Town, substantially less or more than the actual cost to complete the work; provided, however, that the Town reserves the right to waive any and all informalities as to form. Matters as to substance shall not be waived. Subject to the provisions of applicable laws, if the forms, specifications, or any other bid document require submission of special information or data to accompany bids for any trade, if applicable, and any bidder neglects to furnish such information or data with its bid, the Town may reject the bid of such bidder as incomplete; provided, however, that the Town reserves the right to deem any such omission as an informality for which such bid will not be rejected, and to subsequently receive such information or data prior to award of the contract. See paragraph C. above as to the Town's right to reject the bid of any bidder who is not qualified, competent and responsible.

O. COMMENCEMENT AND COMPLETION OF WORK

1. The successful bidder, upon execution of the contract agreement, shall commence the work of the contract within seven (7) calendar days from receipt of the written Notice to Proceed issued by the Town within fourteen (14) calendar days after said execution of the contract agreement, and shall therefore diligently and continuously carry out the work in such a manner as to substantially complete the work as noted herein.

P. LIQUIDATED DAMAGES

1. Liquidated damages for failure to complete the work within the time specified in the Invitation for Bid will be assessed by the Town in the amount stipulated therein. The liquidated damages of \$100.00 per calendar day is a minimum damage figure to compensate the Town for administrative costs and loss for delay of its use of the project, and for added Owner's Project Manager, Designer, and consultant fees, and does not limit in any way the liability of the contractor for damages in excess of the specified liquidated damages amount for other damages, in particular damages for breach of contract. It is expressly understood that such liquidated damages do not constitute a penalty.

Q. MASSACHUSETTS SALES AND USE TAX

1. Materials purchased for permanent installation in the work will be exempt from the Massachusetts Sales and Use tax. Each bidder shall consider this exemption in calculating her/his bid for the work.

R. OSHA TRAINING

1. Massachusetts law requires that all employees who work on Massachusetts public works construction sites must have no less than 10 hours of OSHA approved safety and health training. See M.G.L. c.30 §39M(c), M.G.L. c.30 §39S(a)(1), M.G.L. c.149 §44E(2), and M.G.L. c.149 §44F(2).

S. PAYMENT OF STATE TAXES

1. Bidders are required to certify that all state tax returns have been filed and all state taxes have been paid in order to be eligible to enter into a contract with the Town on this project. The form provided herein is to be used for this purpose and is to be completed and returned as part of the bid.

BID FORM #23-18

To the Awarding Authority:

A. The Undersigned proposes to furnish all labor and materials required for

Pavement Marking Services

in accordance with the accompanying plans and specifications, subject to additions and deductions according to the terms of the specifications, at the prices indicated herein.

See Attached Unit Price Bid Sheet

This bid includes addenda numbered _____, _____, _____, _____,

The Town will award the contract to the lowest responsive and responsible bidder in accordance with M.G.L. c.30 §39M.

- B. The undersigned agrees that, if selected as general contractor, s/he will within five days, Saturdays, Sundays and legal holidays excluded, after presentation thereof by the awarding authority, execute a contract in accordance with the terms of this bid and furnish a labor and materials or payment bond, of a surety company qualified to do business under the laws of the commonwealth and satisfactory to the awarding authority and in a sum not less than fifty percent (50%) of the contract price, the premiums for which are to be paid by the general contractor and are included in the contract price.
- C. The undersigned hereby certifies that s/he has carefully examined the bid and contract documents, established a thorough understanding of existing conditions, and has obtained sufficient information for executing the work of her/his bid and the work of all related trades.
- D. The undersigned further certifies that s/he is able to furnish labor that can work in harmony with all other elements of labor employed or to be employed on the work and that s/he will comply fully with all laws and regulations applicable to awards made subject to M.G.L. c.30 §39M, and all other applicable laws.
- E. The undersigned further certifies that all employees to be employed at the worksite will have successfully completed a course in construction safety and health approved by the United States Occupational Safety and Health Administration (OSHA) that is at least 10 hours in duration at the time the employee begins work and who shall furnish documentation of successful completion of said course with the first certified payroll report for each employee.

- F. The undersigned further certifies under the penalties of perjury that this bid is in all respects bona fide, fair, and made without collusion or fraud with any other person. As used in this subsection the word "person" shall mean any natural person, joint venture, partnership, corporation or other business or legal entity.
- G. The undersigned further certifies under the penalties of perjury that said undersigned is not presently debarred from doing public construction work in the commonwealth under the provisions of M.G.L. c.29, §29F, or any other applicable debarment provisions of any other chapter of the General Laws or any rule or regulation promulgated thereunder.

II LOCATION OF WORK

Work under this contract shall include all equipment, labor, material and services to install pavement markings, symbols and/or lane striping on various roads within the Town of Arlington. Pavement markings to be utilized shall be reflectorized multi-component epoxy resin traffic paint at various locations as designated by the Arlington Department of Public Works (DPW).

III SCOPE OF WORK

1. Pavement Marking and Lane Striping Services

Invitation for proposals is for work including all equipment, labor, material and services to install reflectorized pavement markings, traffic symbols and lane striping on designated roads within the Town of Arlington, Massachusetts. The markings shall utilize Multi-Component Epoxy Traffic Paint and adhere to MassDOT Standard Specifications for Highways and Bridges SUBSECTION 860: REFLECTORIZED PAVEMENT MARKINGS with the exception of Subsection 860.65 Recessed Markings. Application will be at various locations as designated by the Arlington Department of Public Works.

2. High Friction Surface Treatment

This work shall consist of the application of High Friction Surface Treatment (Green) for bicycle facilities on existing roads.

The surface treatment shall be green in color. Samples of color shades shall be submitted to the Engineer for selection of the actual color to be used. The high friction surface treatment must be composed of a two component, epoxy-modified, acrylic, waterborne coating specifically designed for application onto asphalt or non-bituminous concrete surfaces such as cement concrete, and is specially formulated to provide a safe, durable, long lasting color and texture to the pavement surface.

Material must have a balance of properties that will ensure adhesion and movement on a flexible pavement, while providing excellent durability and color stability. Key properties include wear and crack resistance, color retention, adhesion, minimal water absorption and increased friction properties.

The material shall be a durable, colorized, slip resistant and skid resistant coating suitable for delineating areas for preferential use, such as bicycle lanes.

A Certificate of Analysis from an independent recognized testing laboratory confirming performance as outlined above shall be made available upon request. The Contractor shall install the high friction surface treatment in accordance with all manufacturers' installation and materials specifications. Copies of the manufacturer's installation procedures and materials specifications shall be provided to the Engineer for approval before placement of the surface treatment is allowed.

3. Traffic Control

Project shall be performed at night to reduce traffic congestion, aid in traffic safety and reduce impacts on painted lines caused by vehicular traffic. All work areas shall utilize suitable traffic

control to keep vehicles off of the traffic markings until suitably dried and vehicle tracking will not occur. The cost of providing traffic control shall be considered incidental to the cost of line striping.

The cost for Police Details will be provided by the Town of Arlington and the cost need not be included in the Bid. However, the Contractor will be required only on approval of the Engineer to be responsible to coordinate and request Police Details. The Contractor will be responsible for cancellation of any Police Details and shall make such cancellation call at least 1 hour prior to scheduled start time. Police Details shall have the authority to control any full or partial road or sidewalk closure or detour as it pertains to Public Safety. The Contractor shall fully comply with any reasonable request of the Police Detail for cones, barrels, signs, etc.

All traffic control devices required for pavement marking installation or protection of markings shall be in accordance with Subsection 850: Traffic Controls for Construction and Maintenance Operations. Lane closures, shifts, or other temporary traffic control setups to accommodate pavement marking operations shall be approved by the Engineer.

4. Pavement Marking Removal

The removal of existing pavement markings is not anticipated as part of this project but included in case of unforeseen circumstances and/or conditions.

5. GENERAL

All work done under this contract shall be in conformance with **the COMMONWEALTH OF MASSACHUSETTS DEPARTMENT OF TRANSPORTATION STANDARD SPECIFICATIONS FOR HIGHWAYS AND BRIDGES DATED 2022, THE SUPPLEMENTAL SPECIFICATIONS DATED JUNE 30, 2022, MASSACHUSETTS DEPARTMENT OF TRANSPORTATION OVERHEAD SIGNAL STRUCTURE STANDARD DRAWINGS DATED 2015, 2009 MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES; REV. JULY 2022, the MASSACHUSETTS AMENDMENTS TO 2009 MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES FOR STREETS AND HIGHWAYS AS DATED NOV. 2022** and these SPECIAL PROVISIONS.

IV SPECIAL PROVISIONS

1. Definition of Terms

All reference to Department herein and in the Commonwealth of Massachusetts, Standard Specifications for Highways and Bridges, 1988, shall refer to the Owner" as the Department of Public Works of the Town of Arlington."

DEFINITIONS OF ITEMS

ITEM #

1. **4-inch White; (Long Lines):** This work shall consist of the application of 4-inch reflectorized white epoxy traffic paint on existing roads and shall include suitable traffic control and/or devices to prevent vehicles from traveling on the newly painted sections and to provide a safer environment for workers. Payment shall be made by the Lineal Foot.
2. **4-inch White; (parking spaces):** This work shall consist of the application of 4-inch reflectorized white epoxy traffic paint on existing roads for parking spaces and shall include suitable traffic control and/or devices to prevent vehicles from traveling on the newly painted sections and to provide a safer environment for workers. Payment shall be made by the Lineal Foot.

3. **4-inch Yellow:** This work shall consist of the application of 4-inch reflectorized yellow epoxy traffic paint on existing roads and shall include suitable traffic control and/or devices to prevent vehicles from traveling on the newly painted sections and to provide a safer environment for workers. Payment shall be made by the Lineal Foot.
4. **6-inch Yellow:** This work shall consist of the application of 6-inch reflectorized yellow epoxy traffic paint on existing roads and shall include suitable traffic control and/or devices to prevent vehicles from traveling on the newly painted sections and to provide a safer environment for workers. Payment shall be made by the Lineal Foot.
5. **6-inch White:** This work shall consist of the application of 6-inch reflectorized white epoxy traffic paint on existing roads and shall include suitable traffic control and/or devices to prevent vehicles from traveling on the newly painted sections and to provide a safer environment for workers. Payment shall be made by the Lineal Foot.
6. **12-inch White:** This work shall consist of the application of 12-inch reflectorized white epoxy traffic paint on existing roads and shall include suitable traffic control and/or devices to prevent vehicles from traveling on the newly painted sections and to provide a safer environment for workers. Payment shall be made by the Lineal Foot.
7. **24-inch White:** This work shall consist of the application of 24-inch reflectorized white epoxy traffic paint on existing roads and shall include suitable traffic control and/or devices to prevent vehicles from traveling on the newly painted sections and to provide a safer environment for workers. Payment shall be made by the Lineal Foot.

TRAFFIC SYMBOLS - White : The work shall consist of the application of various traffic symbols utilizing reflectorized epoxy traffic paint on existing roads. Symbols shall be compliant with MUTCD size requirements and include the following:

8. **Merge Triangle (Large);** Payment shall be made by Each (EA).
9. **Merge Triangle (Small) ;** Payment shall be made by Each (EA).
10. **Bike Detection symbol;** Payment shall be made by Each (EA).
11. **Sharrow; Standard (white paint) ;** Payment shall be made by Each (EA).
12. **Bike Lane Symbol (bike with arrow) ;** Payment shall be made by Each (EA).
13. **Left Turn Arrow;** Payment shall be made by Each (EA).
14. **Right Turn Arrow;** Payment shall be made by Each (EA).
15. **Combination Arrow; Straight & Left;** Payment shall be made by Each (EA).
16. **Combination Arrow; Straight & Right;** Payment shall be made by Each (EA).
17. **Combination Arrow; Straight, Left & Right;** Payment shall be made by Each (EA).

TRAFFIC LETTERING - White : This work shall consist of the application of various traffic lettering utilizing reflectorized epoxy traffic paint on existing roads. Lettering shall be compliant with MUTCD size requirements and include the following:

18. **LETTERING “BUS”**; Payment shall be made by Each (EA).
19. **LETTERING; “ONLY”**; Payment shall be made by Each (EA).
20. **TRAFFIC PAINT REMOVAL** : This work shall consist of the removal of existing traffic paint line markings on existing roads. Payment shall be made by the Square Foot (SF).
21. **LAYOUT AND PRE-MARKING SERVICES**: This work shall consist of providing layout and pre-marking of line striping in coordination with the Arlington Engineering Division. Payment shall be made by the Hour (HR).

HIGH FRICTION SURFACE TREATMENT : This work shall consist of the application of various traffic lettering utilizing reflectorized epoxy traffic paint on existing roads. Lettering shall be compliant with MUTCD size requirements and include the following:

22. **Bike Lane Skip (green)**: This work shall consist of the application of High Friction Surface Treatment in 2ft x 5ft repeating pattern, layout and pre-marking of line striping in coordination with the Arlington Engineering Division. Payment shall be made by the Square Foot (SF).
23. **LAYOUT AND PRE-MARKING SERVICES**: This work shall consist of providing layout and pre-marking of line striping in coordination with the Arlington Engineering Division. Payment shall be made by the Hour.

2. Work Schedule

Work on this project is restricted to be performed at night, during weekdays (Monday – Friday). No work shall be performed as part of this contract on Saturdays, Sundays, or Holidays without a written request and prior approval from the Town of Arlington Engineering Division and Police Department.

A pre-construction meeting will be required between the contactor, Department of Public Works and the Police Department to coordinate police detail requirements, work schedule, and other traffic/schedule/safety related issues.

3. Time of Completion

The work specified under this contract shall be completed by June 30, 2023, unless special permission is requested in writing and approved by the Arlington Engineering Division.

4. Labor & Material or Payment Bond

In accordance with Massachusetts General Laws, Chapter 149, Section 29, the selected contractor will be required to submit a Labor and Materials or Payment bond, in the amount of fifty percent (50%) of the contract sum, from a surety company qualified to do business under the laws of the Commonwealth and approved by the Town.

5. Bid Submission

Each bid must be submitted in a sealed envelope bearing on the outside the name of the bidder, his/her address, and the name of the project for which the bid is submitted, and the name and number of the Contract for which the bid is submitted. If forwarded by mail, the sealed envelope containing the bid must be enclosed in another envelope addressed as follows:

Bid Documents
Purchasing Director
BID # 23-18, PAVEMENT MARKINGS AND LINE STRIPING SERVICES
Town of Arlington
Town Hall, 730 Massachusetts Avenue
Arlington, Massachusetts 02476

The Owner will receive sealed bids until the time, and at the location designated in the Notice to Contractors. Bids received after this time will not be accepted. All interested parties are invited to attend; bids shall be opened publicly and read aloud.

6. Interpretation of Basic Estimate of Quantities

Attention is directed to the fact that the quantities of work to be done are based on observations and available data. The estimated quantities are approximate and should be used only as a guide. No quantities are guaranteed under this contract.

7. Prosecution of Work and Provisions for Travel

The Contractor shall give notice in writing to the Engineer at least seven days in advance of beginning any work affecting the maintenance of traffic where work affects the street in use by the public.

Before starting any work under this Contract, the Contractor shall submit his schedule of operations as provided herein.

The Contractor must prosecute the work efficiently and with the least possible delay.

The Contractor shall provide safe and convenient means of access to all buildings of property along the line of work at all times, coordinate the scheduling of safety and traffic details with the Arlington Police Department, and provide notification to the Arlington Department of Public Works and direct abutters at least one (1) business day prior to commencement of work adjacent to said abutter property.

8. Provisions for Access at All Locations

The Contractor shall cooperate with the various utility companies and provide access through a worksite if required for their work in connection with this project.

All permanent and temporary surfaces open for traffic during construction shall be maintained by the Contractor, as directed, in accordance with the provisions of herein.

THE TOWN WILL NOT ACCEPT ANY MATERIALS DELIVERED TO ANY PROJECT IN MOTOR VEHICLES OR SEMI-TRAILER UNITS THAT EXCEED THE LEGAL MAXIMUM GROSS WEIGHT ALLOWED FOR THE PARTICULAR CLASS, AS SPECIFIED IN SECTION 19 A OF CHAPTER 90 OF THE GENERAL LAWS OF MASSACHUSETTS.

9. Insurance Requirements

The limits of the several kinds of liability insurance required for this Contract, in addition to insurance for Workmen's Compensation are as listed as follows:

- a. Bodily Injury Liability insurance, in an amount not less than Five Hundred Thousand Dollars (\$500,000) for injuries, including wrongful death to any one person, and subject to the same limit for each person to an amount of not less than One Million Dollars (\$1,000,000) as account of one accident.
- b. Broad Form Property Damage Liability Insurance in an amount not less than Five Hundred Thousand Dollars (\$500,000) for damages on account of any one accident, and in an amount not less than One Million Dollars (\$1,000,000) for damages on account of all accidents.
- c. Automobile Bodily Injury Liability Insurance, in an amount not less than Five Hundred Thousand Dollars (\$500,000) for injuries, including wrongful death to any one person and subject to the same limit for each person in an amount not less than One Million Dollars (\$1,000,000) on account of one accident.
- d. Automobile Property Damage Insurance in an amount not less than Five Hundred Thousand Dollars (\$500,000) for damages on account of any one accident and in an amount not less than One Million Dollars (\$1,000,000) for damages on account of all accidents.
- e. Contractors Public Liability Insurance in an amount not less than Five Hundred Thousand Dollars (\$500,000) for each occurrence and in an amount not less than One Million Dollars (\$1,000,000) annual aggregate.

10. Maintenance of Traffic

During construction, the Contractor shall maintain two way traffic at all times. The Contractor shall make every effort to maintain access to all drives at all times. If access to any drives cannot be maintained, the Contractor shall notify the Engineer and persons affected, in writing, at least one (1) week in advance of the planned discontinuance. In any case, the access shall not be discontinued for more than two (2) consecutive days without obtaining the written authorization of the Engineer.

A minimum of 24-hours prior to commencing work, the permit applicant shall contact the Town of Arlington Police Department to determine if a Police Safety Detail will be required for the proposed work.

The use of a Police Safety Detail does not eliminate the need for proper warning signs and traffic control devices during the course of construction.

It shall be the sole responsibility of the contractor to provide & employ appropriate construction signage and barriers/cones/etc as needed. All signs and devices shall be in accordance with the Manual on Uniform Traffic Control Devices for Streets and Highways and all applicable MassDOT Standards/Requirements.

Additional signage and devices shall be provided and installed as deemed necessary by the Department of Public Works and/or Police Department for the safe and efficient performance of the work and the safety of the traveling public.

During the entire course of work, the applicant and/or owner shall be responsible to properly delineate & protect the job site in accordance with current MUTCD Standards to the full satisfaction of the Arlington Police Department. Failure or inability to provide appropriate devices & signage may result in work being suspended at the discretion of the Town of Arlington.

Reflective barrels, construction signage and other devices deemed necessary by the Engineer shall be utilized to direct vehicular and pedestrian traffic safely through the construction zone. All work left unattended shall be plated or ramped and suitable work safety devices and methods shall be utilized as necessary. All sidewalks and ramps shall be barricaded with reflective barrels and warning flagging where surfaces are impaired. If determined, signs may be needed on sidewalks to direct pedestrians around construction zone. Temporary stop and one-way signs may be needed until permanent signs are installed.

All signs, barricades, and barrels shall be in accordance with materials Specification M9.30.2 of the Department's "Standard Specifications for Highways and Bridges, 1988 Edition or current version.

11. Protection of Utilities and Property

The Contractor shall be responsible for maintenance and protection of all utilities and shall repair at his/her own expense any damage to such structures caused by his/her act or neglect, and shall leave them in as good condition as they were previous to the commencement of the work. In cases of damage to utilities caused by him resulting in an emergency, the Contractor shall promptly warn the Owner and shall, if requested, furnish laborers to work temporarily under the Owner's direction in getting access to the utility. Pipes or other structures damaged by the operation of the Contractor may be repaired by the Town, Department or Company, which suffers the loss. The cost of such repairs shall be at the expense of the Contractor.

12. Notice to Owners of Utilities

When necessary, written notice shall be given by the Contractor to all public service corporations or officials owning or having charge of publicly or privately owned utilities of his/her intention to commence operations affecting such utilities at least one week in advance of the commencement of such operations, and the Contractor shall at that time file a copy of such notice with the Engineer.

Before the Contractor begins any work or operations, which might damage any subsurface structures, he shall carefully locate all such structures and conduct his/her operations so as to avoid any damage to them. The following are the names and addresses of the utilities presumed to be affected, but the completeness of the list is not guaranteed:

Town of Arlington
Town Engineer, Wayne A. Chouinard P.E. (781- 316- 3320)

V CONSTRUCTION METHODS AND MATERIAL SPECIFICATIONS

Work associated with this project shall adhere to the following attached specifications and requirements:

1. Section 850 Pavement Marking Removal
2. Section 860 Reflectorized Pavement Markings

SECTION 850

PAVEMENT MARKING REMOVAL

850. 67 Pavement Marking Removal.

Designated pavement markings shall be removed to the fullest extent possible by an approved method. Pavement marking removal methods shall not cause damage to the pavement or cause drastic change in texture, which could be construed as delineation at night, and shall be approved by the Engineer. It is not permissible to paint over existing markings with black paint in lieu of removal. Approved methods include but are not limited to:

1. High pressure air.
2. High pressure water (cold weather use not permitted)
3. Sand blasting,
4. Mechanical devices such as grinders, sanders, scrapers, scarifiers and wire brushes.

Painting over a pavement marking line by use of asphaltic liquids or paints will not be permitted.

Conflicting pavement markings shall be removed before any change is made in the traffic pattern.

Material deposited on the pavement as a result of removing markings shall be removed as the work progresses. Accumulations of sand or other material, which might interfere with drainage or could constitute a hazard to traffic, will not be permitted.

Any damage to the pavement or surfacing caused by pavement marking removal shall be satisfactorily repaired at no additional cost to the Town.

Where the removal operation is being performed near a lane occupied by traffic, a vacuum attachment operating concurrently with the removal operation must be in use. All residue shall be removed immediately from the surface being treated.

850.82 Payment Items.

854.1 Pavement Marking Removal
Square Foot

SECTION 860

REFLECTORIZED PAVEMENT MARKINGS

DESCRIPTION

860.20 General.

This item of work consists of furnishing materials and the application of ReflectORIZED Pavement Markings in accordance with the Commonwealth of Massachusetts, Department of Public Works, Manual on Uniform Traffic Control Devices, current edition.

MATERIALS

860.40 General.

Materials shall be as specified under the particular payment item being used and shall meet the appropriate requirements specified in the following Subsections of Division III, Materials:

General Requirements for Paints and Protective Coatings	M7.00.00
White Traffic Paint	M7.01.05
Yellow Traffic Paint	M7.01.06
Glass Beads	M7.01.07

CONSTRUCTION METHODS

860.60 Equipment.

All equipment used for the application of pavement markings shall be of standard commercial manufacture. All other equipment and devices necessary for the application of the pavement markings and protection thereof and for the protection to the traveling public shall be as usually required for work of this type and shall be furnished by the Contractor.

The pavement marking equipment shall be operated at the speed and in accordance with other requirements of the manufacturer, unless otherwise directed by the Engineer.

Truck mounted equipment is approved for the application of pavement markings except in such cases where in the Engineer's judgement, travel will be unreasonably delayed and or the quality of the work performed by the machine is unsatisfactory.

The Contractor will supply an infrared pistol thermometer meeting the requirements of Section 460.60 for each traffic marking operation on the project. The thermometers will remain the property of the Contractor upon completion of the project.

860.61 Layout of Work.

A schedule of pavement marking operations shall be furnished by the Contractor for the approval of the Engineer prior to the application of any pavement markings. This schedule must be in the office of the Engineer 7 days prior to the proposed date of application of any pavement markings and shall occur after a pre-construction meeting between the contractor, Department of Public Works and the Police Department.

The majority of this contract will entail re-striping on top of existing pavement markings. Delineation of striping demarcation areas is listed on the "Pavement Marking Areas: Section Information Sheet". If questions arise, the contractor shall address further with the Town of Arlington Engineering Division.

One area of this project includes the requirement to layout the required markings prior to applying the required traffic marking paint. This area includes the section of Massachusetts Avenue from Highland Avenue to Spengler Way.

See Road Striping Plan by Green International Affiliates, Inc.: Figure 11 (11" x 17"); Proposed Improvements on Massachusetts Avenue, Arlington Massachusetts, dated May 8, 2014

The layout for this area shall be in accordance with the attached and referenced striping plan. Contractor shall coordinate the layout and pre-marking for this section with the Engineering Division.

860.62 Application of Markings.

Pavement markings shall be applied as follows:

<u>Material</u>	<u>Material Application Temperature</u>	<u>Line Thickness</u>	<u>ReflectORIZED Bead Application</u>
M7.01.05	115°F-125°F	15 mils	6lbs/gal
M7.01.06	115 °F-125 °F	15 mils	6lbs/gal
M7.01.08	180°F-195°F	15 mils	6lbs/gal
M7.01.09	180°F -195°F	15 mils	6lbs/gal
M7.01.10	40°F-120°F	15 mils	6lbs/gal
M7.01.11	40°F-120°F	15 mils	6lbs/gal
M7.01.03	400°F-425°F	128-188 mils	1 #/10 SF Drop on
M7.01.04	400°F-425°F	125-188 mils	1 #/10 SF Drop on

No thinners shall be used for the above listed pavement marking applications except in accordance with the manufacturer's specifications and at the direction of the Engineer.

No paint or pavement marking material shall be heated above the temperature marked on the container.

Markings shall be applied only in seasonable weather and in accordance with good painting practices. The surface shall be dry and free of sand, grease, oil or other foreign substances prior to the application. The Contractor shall prepare the surface to accept the application as part of this item, with no additional compensation. The Engineer will make the final determination for all of the foregoing.

Bituminous concrete pavements shall have been in place for 48 hours prior to the application of pavement markings except preformed permanent plastic pavement markings which can be applied immediately. When it is necessary to expedite the flow of traffic, the Engineer may reduce the waiting period as is deemed necessary.

If for any reason material is spilled or tracked on the highway, or any markings applied by the Contractor, in the Engineer's judgment, fail to conform to Subsection 860.61, because of a deviation from the desired pattern, the Contractor shall remove such material by a method that is not injurious to the roadway surface and is acceptable to the Engineer, clean the roadway surface and prepare the surface for a reapplication of markings and reapply the markings as directed without additional compensation for any of the foregoing corrective operations.

The ambient (air) temperature for thermoplastic application is to be a minimum of 45°F and rising at the time of marking operations. If work has started and air temperatures fall below 45°F and continuous cooling is indicated, work shall be stopped. In cool weather conditions, temporary drops down to 40°F will be tolerated, providing temperatures also vary upwards. Sustained striping (greater than one hour) at 40°F shall not be allowed. Starting work at air temperatures lower than 45°F shall not be allowed.

860.63 Protection of Markings.

Markings shall remain protected until sufficiently dry to bear traffic on highways that are open to traffic.

Markings shall be protected by traffic cones of not less than 28" in height except in the case of markings which cure to a no track condition in 180 seconds or less in the latter case protection may be provided by a convoy of vehicles with suitable warning devices to warn overtaking or on coming traffic that the pavement marking operation is in progress.

A. Broken Lines.

On tangents and on curves of 1000 foot radius or greater at least 1 cone shall be placed on every other bar. On curves of less than 1000 foot radius 1 cone shall be placed on every bar unless otherwise directed by the Engineer.

B. Solid Lines.

On tangents and on curves of 1000 foot radius or greater, cones shall be spaced not over 80 feet apart and on curves of less than 1000 foot radius the spacing shall be not over 50 feet unless otherwise directed by the Engineer. On edge line adjacent to the median wider spacing may be used at the direction of the Engineer.

In order to control the proper positioning of the cones during the drying period, the Contractor shall assign sufficient personnel as determined by the Engineer. Such control is dependent on traffic density, cone widths, etc.

860.64 Accommodation of Traffic.

All warning signs and traffic control devices as required shall be in accordance with Section 850 of these Specifications.

No work shall be done on this item on roadways open to traffic on Saturdays, Sundays, the day before a holiday or on a holiday except when otherwise specifically directed by the Engineer.

Both lanes of two-lane highways shall remain open to traffic at all times. On multi-lane highways only one lane shall be closed to traffic at any time.

Work under this item may be suspended, at the discretion of the Engineer, during peak traffic hours or at any other time when, in his judgment, traffic is being unduly hampered or delayed by the work, under this item.

COMPENSATION

860.80 Method of Measurement.

Markings are to be paid for on the actual length of lines applied under the various items of the Contract.

The lengths of solid lines will be obtained by:

1. Calculation from established base line stations or
2. Use of a measuring wheel or
3. Vehicle odometer readings.

The length of broken lines (except for broken lines less than 10 feet, the actual length shall be used) will be obtained by using 114 of the results obtained above for solid lines. Patterns, other than lines, are to be paid for by the square foot area under the item in the Contract.

860.81 Basis of Payment.

The work under these items will be paid for at the contract unit price under each item of the Contract based on the measurements as determined by the Engineer. The contract prices shall include all material, labor, and equipment required or incidental to the satisfactory completion of the work.

860.82 Payment Items.

REFLECTORIZED PAVEMENT MARKINGS – EPOXY		
860.04-860.12	4-24 inch reflectorized white line (paint)	Linear Foot
861.04-861.12	4-24 inch reflectorized yellow line (paint)	Linear Foot
864.00	Pavement arrow reflectorized white (paint)	Square Foot
	Pavement legends (paint)	Square Foot
864.07	Pavement Arrow and Legends (Epoxy)	Square Foot
868.06	6- inch Reflectorized White E (Epoxy)	Linear Foot
868.12	12-24 inch Reflectorized White Line (Epoxy)	Linear Foot
869.06	6-inch Reflectorized Yellow Line (Epoxy)	Linear Foot
869.12	12-inch Reflectorized Yellow Line (Epoxy)	Linear foot

General

Work under these items cover white and yellow epoxy reflectorized pavement striping material that is sprayed onto the pavement. As work incidental to these items the Contractor shall furnish to the Department one portable spectrophotometer and one replacement calibration standard with the Department taking ownership of these pieces of equipment. The spectrophotometer shall be delivered to the Research and Materials headquarters at the beginning of line striping work. Following a surface application of glass beads and upon drying, the resultant marking is a reflectorized stripe of specified thickness and width, that is capable of resisting deformation by traffic. Work under these items shall conform to the relevant provisions of Section 860 of the Standard Specifications and the following:

MATERIAL REQUIREMENTS**A. REGULAR-DRY EPOXY SUGGESTED SUPPLIERS**

	<u>SUPPLIER/LOCATION</u>
Epoplex LS50	Epoplex - Stonhard Inc. Maple Shade, NJ
Hotline TM 8212 (Part A White)	Baltimore Paint and Chemical Co.
Hotline TM 8213 (part A Yellow)	Division of Sherwin-Williams
Hotline TM 8214 (Part B Hardener or Converter)	Baltimore, MD Edison, NJ
Lumiline, Lumiline II	Accent Stripe, Inc. Orchard Park, NY
Poly-Carb Mark 55.3	Poly-Carb Inc. Solon, OH
Super Lifeline II, III	Linear Dynamics Ball Ground, GA
Thermopoxy Series 100 Part A (Series 101 White) Part A (Series 102 Yellow) Part B (Series 103)	Technical Coatings Corp. Alpharetta, GA

B. Epoxy Material**1. Composition.**

The epoxy resin composition shall be specifically formulated for use as a pavement marking material and for hot-spray application at elevated temperatures. The type and amounts of epoxy resins and curing agents shall be at the option of the manufacturer, providing the other composition and physical requirements of this specification are met.

The epoxy marking material shall be two-component (Part A and Part B), 100% solids type system formulated and designed to provide a simple volumetric mixing ratio (e.g. two volumes of Part A to one volume of Part B).

The epoxy marking material shall be supplied as either a regular dry or a slow-dry material. Regular-dry may be used for all marking patterns. Slow-dry material is intended for marking hatch lines, edge lines, and other marking patterns located out of the general path of traffic.

All acceptances of uninstalled epoxy marking material shall expire six (6) months after the date of manufacture.

Part A of both white and yellow shall conform to the following requirements:

PERCENT BY WEIGHT OF PART A.

WHITE Pigment - 18 Minimum, Titanium Dioxide (ASTM D476,
Type II) Epoxy Resin - 75 to 82

YELLOW Pigment - 18 Minimum, Titanium Dioxide (ASTM D476,
Type II), 5 Minimum, Organic Yellow, Epoxy Resin - 73 to 77

The entire pigment composition shall consist of either titanium dioxide or titanium dioxide and organic yellow. No extender pigments are permitted. Yellow pigment shall be lead-free.

The epoxy content of the epoxy resin in Part A will be tested in accordance with ASTM D 1652 and calculated as the weight per epoxy equivalent (WPE) for both white and yellow. The epoxy content will be determined on a pigment free basis. The epoxy content (WPE) shall meet a target value provided by the manufacturer and approved by the Department. A ± 50 tolerance will be applied to the target value to establish the acceptance range.

The amine value of Part B shall be tested in accordance with ASTM D2074(2) to determine its total amine value. The total amine shall meet a target value provided by the manufacturer and approved by the Department. A ± 50 tolerance will be applied to the target value to establish the acceptance range. The manufacturer may specify an alternate test method for determining the amine value subject to the approval of the Department.

2. Physical Properties of Mixed Components (Part A and Part B).

Unless otherwise noted, all samples are to be prepared tested at an ambient temperature of 73 $\pm 3^\circ\text{F}$.

a. Color.

Yellowness Index (ASTM 0-1925).

- cure 72 hours after sample preparation
- Take yellow index reading, XYZ Cf2°, following 72 hour cure and preceding QUV
- Maximum index before QUV: 8.0
- Place sample in QUV for 72 hours
- Maximum index after QUV: 20

Typical White Standard	Typical Yellow Standard
X78.5	X52.7
Y81.1	Y48.1
Z90.4	Z7.6
Y14.7	

b. Directional Reflectance.

The white epoxy composition (without glass spheres) shall have a daylight directional reflectance of not less than 84% relative to a magnesium oxide standard when tested in accordance with ASTM E1347.

The yellow epoxy composition (without glass spheres) shall have a daylight directional reflectance of not less than 55 % relative to a magnesium oxide standard when tested in accordance with ASTM E 1347.

c. Drying Time (Laboratory).

When tested in accordance with ASTM 0711 as modified below, regular-dry epoxy marking material shall reach a no-pick-up time in 30 minutes or less. Under these same test conditions, slow-dry epoxy marking material shall reach a no-pick-up time in 60 minutes or less. A Bird Applicator or other suitable instrument shall be used to spread a nominal 15 ± 1 mil thick wet film. Reflective glass spheres shall be immediately dropped onto the epoxy film at a rate of 18 pounds per gallon.

d. Drying Time (Field).

When installed at 77°F at the specified wet film thickness and reflectorized with glass spheres, regular-dry and slow-dry epoxy markings shall reach a no-track condition in approximately 30 minutes, and 60 minutes, respectively.

Dry to "no-tracking" shall be considered as the condition where no visual deposition of the epoxy marking to the pavement surface is observed when viewed from a distance of 50 feet, after a passenger car is passed over the line.

e. Hardness.

The epoxy composition when tested in accordance with ASTM D2240 shall have a Shore D hardness of between 75 and 100 . Samples shall be allowed to cure for not less than 72 hours nor more than 96 hours prior to testing.

f. Infrared Spectrophotometer Analysis (ASTM 02621).

Samples of Part A and Part B shall be analyzed by infrared spectrography. The spectrum of each component shall be a reasonable match to the spectrum of the original formulation accepted by the Department.

C. Reflective Glass Spheres.

Reflective glass spheres for drop-on application shall conform to the following requirements:

The glass spheres shall be colorless, clean, transparent, free from milkiness or excessive air bubbles, and essentially clean from surface scarring or scratching. They shall be spherical in shape and at least 80 % of the glass beads shall be true spheres when tested in accordance with ASTM is D-1155, Procedure A.

The refractive index of the spheres shall be a minimum of 1.5 as determined by the liquid immersion method at 77°F.

The silica content of the glass spheres shall not be less than 60 % .

The glass spheres shall have the following gradation when tested in accordance with ASTM D-1214.

ITEMS 864.07 through 869.12 (Continued)

DOUBLE DROP METHOD

TYPE I		TYPE II	
<u>Sieve Opening</u>	<u>% Retained</u>	<u>Sieve Opening</u>	<u>% Retained</u>
No. 10	0	No. 20	0-5
No. 12	0-5	No. 30	5-20
No. 14	5 - 20	No. 50	30-50
No. 16	40 – 80	No. 80	9-32
No. 18	10 - 40	No. 100	0-5
No. 20	0-5	Pan	0-2
Pan	0-2		

The glass spheres, Type I, shall be coated with a silane-type adherence coating to enhance embedding in and adherence to the applied binder film. The coated beads shall emit a yellow-green fluorescence when tested by the Danayl Chloride test procedure. The Type II glass spheres shall be treated with a moisture-proof coating. The beads shall show no tendency to adsorb moisture in storage and shall remain free

of clusters and lumps. The beads shall flow freely from the dispensing equipment at any time when surface and atmospheric conditions are satisfactory for marking operations. The moisture-resistance of the glass spheres shall be determined on the basis of the following test:

Place one kilogram of spheres in a washed cotton bag having a thread count of approximately 52 per square inch (warp and woof) and immerse the bag in a container of water for 30 seconds. Remove the bag and force excess water from the sample by squeezing the bag. Suspend and allow to drain for two hours at room temperature ($73 \pm 2^{\circ}\text{F}$). Then mix the sample in the bag by shaking thoroughly. Pour the sample slowly into a clean, dry glass funnel having a stem 4 inches in length, with a 0.4 inch inside diameter stem entrance opening and a minimum exit opening of 0.25 inches. The entire sample shall flow freely through the funnel without stoppage. When first introduced into the funnel, if the spheres clog, it is permissible to lightly tap the funnel to initiate the flow.

Reflective glass spheres may be accepted at the job site on the basis of the manufacturer's certification, or they may be submitted to the Research and Materials Laboratory for testing.

D. Packaging and Shipment.

Epoxy pavement marking materials shall be shipped to the job site in strong, substantial containers. Individual containers shall be plainly marked with the following information:

1. Name of Product
2. Item Number
3. Lot Number
4. Batch Number
5. Test Number
6. Date of Manufacture
7. Date of Expiration of Acceptance (6 months from date of manufacture)
8. The Statement (as appropriate): "Part A - Contains Pigment and Epoxy Resin," or "Part B - Contains Catalyst"
9. Quantity
10. Mixing Proportions, Application Temperature and Instructions
11. Safety Information
12. Manufacturer's Name and Address

Reflective glass spheres shall be shipped in moisture resistant bags. Each bag shall be marked with the name and address of the manufacturer and the name and net weight of the material.

EQUIPMENT AND APPLICATION REQUIREMENTS

E. STRIPING EQUIPMENT

The equipment shall have a system capable of spraying the epoxy paint in the manufacturer's recommended proportions and be mounted on a truck of sufficient size and stability, and with an adequate power source to produce lines of uniform dimension and prevent application failure. It shall be capable of placing stripes on the left and right sides and of placing two intermittent lines simultaneously. It shall also be capable of applying glass beads at the rate of 25 pounds per gallon. All guns must be in full view of the operator at all times. The equipment shall be provided

with a metering device to register the accumulated installed footage for each gun each day. Each vehicle shall include at least one operator who shall be a technical expert in equipment operations and epoxy application techniques.

Equipment shall have such a design that the pressure gauges for each proportioning pump are constantly visible to the operator at all times during its operation so that any fluctuation and pressure difference can be addressed immediately.

F. SURFACE PREPARATION

The pavement surface on which the epoxy paint material is placed shall be clean and dry. Existing traffic markings shall be removed by blasting or grinding. The curing compound on Portland cement concrete shall also be removed. Existing markings shall be removed so that at least 95% of the underlying pavement is visible. The abrasive material shall be removed from the pavement surface before the pavement is opened to uncontrolled traffic flow.

G. APPLICATION

1. Epoxy

The epoxy paint markings shall have a thickness of 25 mils \pm 1 mil, calculated without drop-on glass beads. All markings shall have uniform thickness with a uniform distribution of glass beads throughout the line width. The width of lines shall be as specified with a tolerance of 0.25 inches. Markings shall have sharp edges and cutoff at the ends.

2. Glass Beads

The glass beads shall be applied by the double drop method, which requires that Type I and Type II reflective glass spheres be injected into or dropped onto the liquid epoxy marking. Each type shall be applied simultaneously, at a minimum rate of 10 to 13 pounds per gallon of resin with a minimum total application of 25 pounds per gallon. Type I beads shall be applied first, immediately followed by Type II beads. The beads shall adhere to the cured epoxy or all marking operations shall cease until corrections are made.

3. Temperature Limitations

During marking operations, the pavement surface where the epoxy is to be placed shall have a minimum temperature of 40° F and the air temperature shall be at least 35° F. The pavement surface temperature, and the air temperature shall be determined at the start of each day of marking operation and at any time deemed necessary by the Engineer. The spraying temperatures shall be in accordance with the manufacturer's recommendations.

4. Application Rates

Application rates will be checked by the Engineer at convenient intervals by comparing tallies of materials used to the length of lines placed. For initial application and occasionally during the course of work, the Engineer may also check application to a pre-weighed sheet specifically placed for test purposes. Drop-on spheres shall not be applied in this test.

5. Protecting Newly installed Markings

Newly installed markings shall be protected from tracking during the setting period by one or more of the following methods:

- 1) Cone off wet lines from traffic
- 2) Use a convoy of moving vehicles to prevent traffic from crossing wet lines
- 3) Saturate lines with glass beads to prevent tracking.

SECTION M7**PAINTS AND PROTECTIVE COATINGS****M7.00.0 General Requirements for Paints and Protective Coatings.****A. General.**

All paint shall conform to the following general requirements.

1. Materials.

The raw materials used in the following specifications for paints and protective coatings shall conform to the specification designed by ASTM, Federal serial number or AASHTO unless specified otherwise in the individual specification. Subsequent amendments to the specifications quoted shall apply to all raw materials and finished products. No "or equal" substitution for any specified material shall be made without written consent of the Engineer.

2. Proportions.

Paint proportions and percentages given in the following specification are expressed by weight unless stated otherwise.

3. Condition in the container.

Paint and protective coatings shall be homogeneous, free of contaminant and of a consistency suitable for use in the capacity for which it is specified. The finished product shall be well ground and the pigment shall be properly dispersed and suspended in the vehicle according to the requirements of the paint or protective coating. The dispersion shall be of such nature that the pigment does not settle badly, does not cake or thicken in the container, and does not become granular, jelled or curdled. Any settlement of pigment in the paint or protective coating shall be a thoroughly wetted soft mushy mass permitting the complete and easy vertical penetration of a paddle. Settled pigment shall be easily dispersed, with a minimum resistance to the sidewise manual motion of the paddle across the bottom of the container, to form a smooth uniform product of the proper consistency. The manufacturer shall include in the paint the necessary additives for control of sagging, pigment settling, leveling, and other qualities of a satisfactory working material. The paint shall possess satisfactory properties in all respects which affect its application and curing.

4. Packaging.

The finished paint or protective coating shall be furnished in new five gallon, round, non-tapered containers no thinner than 0.0250 in. unless otherwise specified. The containers shall have the lug type crimp lids with ring seals and be equipped with ears and bails. The containers shall meet U. S. Department of Transportation Hazardous Materials Shipping Regulations. The container must be lined if necessary so as to prevent attack by the paint. The lining must not come off the can as skins.

The following information shall be labeled on each can in a clear legible manner:

- a) Name of Manufacturer
- b) Place of Manufacture
- c) Manufacturer's Batch Number
- d) Mass DPW Specification Number
- e) Date of Manufacture

Precautions concerning the handling and the application of the paint or protective coating shall be shown on the label.

B. Sampling and Testing.

1. Sampling.

At least one sample, not less than one quart, shall be taken for each batch or less of each kind of paint to be used. Samples must be taken in clean, dry, airtight, wide mouth metal cans and the sample must fill the can to within one inch from the top. Each sample forwarded to the Research and Materials Section shall be accompanied by the name of the manufacturer, the batch number, the specification number and the quantity of paint represented.

Before the Contractor will be permitted to use any paint, the material proposed to be used shall have been sampled, tested and approved.

The manufacturer, as may be required by the Engineer, shall permit access to an inspection of his paint and all operations involved in the manufacture of these materials; shall permit sampling of raw materials and shall furnish such reasonable facilities as the Engineer may require for such inspection.

2. Testing.

Testing of paints will be done at the Research and Materials Section in accordance with the latest methods of Federal Test Method Standard Number 141, ASTM and Methods in use by the Research and Materials Section.

In addition the Department reserves the right to make use of any information or methods of testing to determine the quality of paint and paint materials.

The manufacturer may obtain dry color chips from the Research and Materials Section in order to obtain the proper sample color if he so desires or he may submit a wet sample of the paint which he proposes to furnish. If the color of the wet sample is approved, paints matching the wet sample will, as regards to color, be accepted.

The Contractor shall assume all costs arising from the use of patented materials, equipment, devices or processes used or incorporated in the work and agrees to indemnify and save harmless the Commonwealth of Massachusetts and its duly authorized representative from all suits at law or action of every nature for or on account of the use of any patented materials, equipment, device or processes.

A listing of the paints is below. Any copies of individual specifications or a complete set of the specifications may be obtained from the Research and Materials Section, 99 Worcester Street, Wellesley Hills, Massachusetts 02181.

M7 .01 Pavement Markings.

- M7 .01.03 White Thermoplastic Reflectorized Pavement Markings
- M7 .01.04 Yellow Thermoplastic Reflectorized Pavement Markings
- M7 .01.05 White Traffic Paint
- M7.01.06 Yellow Traffic Paint
- M7.01.07 Glass Beads
- M7.01.08 White High Heat Rapid Drying Traffic Marking Material
- M7.01.09 Yellow High Heat Rapid Drying Traffic Marking Material

- M7.01.10 Fast Drying White Traffic Paint
- M7.01.11 Fast Drying Yellow Traffic Paint
- M7.01.12 Striping Powder
- M7.01.14 Black Non-Reflective Lane Tape
- M7.01.15 Black Traffic Paint
- M7.01.16 White and Yellow Temporary Reflective Lane Tape
- M7.01.18 Preformed Permanent Plastic Pavement Markings or Legends
- M7.01.20 Thermoplastic Pavement Marking Compound, Alkyd
- M7.01.21 Green Pavement Coatings

M7.02 Structural Paint

- M7 .02.04 Basic Lead Silico Chromate Paint
- M7.02.06 Basic Lead Silico Chromate Intermediate Paint
- M7.02.08 Gray Basic Lead Silico Chromate Paint
- M7.02.11 Basic Lead Silico Chromate Green Finish Paint
- M7 .02.12 Basic Lead Silico Chromate Brown Finish Coat
- M7 .02.13 White Paint (Stain Resistant)
- M7.02.17 Aluminum Paint
- M7.02.18 Heavy Duty Metal Primer
- M7 .02.19 Basic Lead Silico Chromate Finish Coat Reddish Brown
- M7.02.20 Zinc Rich Primer, Organic Vehicle Type
- M7.02.21 Inorganic Zinc Rich Primer
- M7.02.25 High Build Brown Vinyl Finish Paint
- M7.02.28 Green High Build Vinyl Color Coat
- M7.02.29 Lead Free Metal Primer (Iron Oxide, Sr Chromate, Zinc Oxide)
- M7.02.61 Epoxy Ester Based Zinc Rich Primer

M7.03 Enamels

- M7.03.02 Sign and Equipment Enamel

M7.04 Miscellaneous Coatings

- M7.04.01 Coal Tar Protective Coatings
- M7.04.02 Primer, Paint, Exterior, (Undercoat for Wood, Ready Mixed White and Tints)
- M7.04.03 Paint, Zinc Yellow, Iron Oxide Base Ready Mixed (Type II)
- M7.04.04 Paint, Ready Mixed, International Orange
- M7.04.05 Paint, Exterior, Black Ready Mixed
- M7.04.06 Primer Coating, Basic Lead Silico Chromate, Ready Mixed
- M7.04.07 Primer Coating, Zinc Dust-Zinc Oxide (for galvanized surfaces)
- M7.04.08 Enamel Undercoat Interior, Tints and White
- M7.04.09 Paint, Outside, Dull-Black (Formula 104)
- M7.04.10 Primer, Pretreatment (Formula 117 for Metals)
- M7.04.11 Paint, High Zinc Dust Content, Galvanizing Repair

M7.05 Epoxy Protective Coating

- M7.05.01 Epoxy - Polyamide Red Lead Paint
- M7.05.02 Epoxy - Polyamide Green Paint
- M7.05.03 Epoxy - Polyamine Concrete Coating
- M7.05.05 One Coat High Build Epoxy Mastic Coating

M7.10.0 Galvanized Coatings

All galvanized coatings shall conform to the following general requirements:

ASTM-A143 - Safeguarding Against Embrittlement of Hot-Dip Galvanized Structural Steel Products and Procedure for Detecting Embrittlement.

ASTM-A384 - Safeguarding Against Warpage and Distortion during Hot-Dip Galvanizing of Steel Assemblies.

ASTM-A385 - Providing High-Quality Zinc Coatings (Hot-Dip).

AASHTO-M111 - Zinc (Hot-Galvanized) Coatings on Products Fabricated from Rolled, Pressed and Forged Steel Shapes, Plates, Bars, and Strip.

AASHTO-M232 - Zinc coating (Hot-Dip) on Iron and Steel Hardware.

The zinc used shall conform to AASHTO-M 120 and shall be at least equal to the grade designated as "Prime

Western." A minimum of 0.5% nickel (by weight) shall be added to the galvanizing bath.

AASHTO-M298 Coating of Zinc mechanically deposited on iron or steel.

THE COMMONWEALTH OF MASSACHUSETTS
EXECUTIVE OFFICE OF LABOR AND WORKFORCE DEVELOPMENT
DEPARTMENT OF LABOR STANDARDS

Prevailing Wage Rates

As determined by the Director under the provisions of the
Massachusetts General Laws, Chapter 149, Sections 26 to 27H

LAUREN JONES
Secretary

MICHAEL FLANAGAN
Director

Awarding Authority: Town of Arlington
Contract Number: 23-18 **City/Town:** ARLINGTON
Description of Work: Installation/application and/or removal of pavement markings on roadways to include equipment, labor, material and services on various roads within the Town of Arlington. Paint, Thermo & Epoxy
Job Location: 51 Grove Street

Information about Prevailing Wage Schedules for Awarding Authorities and Contractors

- **The wage rates will remain in effect for the duration of the project, except in the case of multi-year public construction projects. For construction projects lasting longer than one year, awarding authorities must request an updated wage schedule no later than two weeks before the anniversary of the date the contract was executed by the awarding authority and the general contractor.** For multi-year CM AT RISK projects, the awarding authority must request an annual update no later than two weeks before the anniversary date, determined as the earlier of: (a) the execution date of the GMP Amendment, or (b) the execution date of the first amendment to permit procurement of construction services. The annual update requirement is not applicable to 27F "rental of equipment" contracts. **The updated wage schedule must be provided to all contractors, including general and sub-contractors, working on the construction project.**
- This wage schedule applies only to the specific project referenced at the top of this page and uniquely identified by the "Wage Request Number" on all pages of this schedule.
- An Awarding Authority must request an updated wage schedule if it has not opened bids or selected a contractor within 90 days of the date of issuance of the wage schedule. For CM AT RISK projects (bid pursuant to G.L. c.149A), the earlier of: (a) the execution date of the GMP Amendment, or (b) the bid for the first construction scope of work must be within 90-days of the wage schedule issuance date.
- The wage schedule shall be incorporated in any advertisement or call for bids for the project as required by M.G.L. c. 149, § 27. The wage schedule shall be made a part of the contract awarded for the project. The wage schedule must be posted in a conspicuous place at the work site for the life of the project in accordance with M.G.L. c. 149 § 27. The wages listed on the wage schedule must be paid to employees performing construction work on the project whether they are employed by the prime contractor, a filed sub-bidder, or a sub-contractor.
- Apprentices working on the project are required to be registered with the Massachusetts Division of Apprentice Standards (DAS). Apprentices must keep their apprentice identification card on their persons during all work hours on the project. An apprentice registered with DAS may be paid the lower apprentice wage rate at the applicable step as provided on the prevailing wage schedule. **Any apprentice not registered with DAS regardless of whether they are registered with another federal, state, local, or private agency must be paid the journeyworker's rate.**
- Every contractor or subcontractor working on the construction project must submit weekly payroll reports and a Statement of Compliance directly to the awarding authority by mail or email and keep them on file for three years. Each weekly payroll report must contain: the employee's name, address, occupational classification, hours worked, and wages paid. Do not submit weekly payroll reports to DLS. For a sample payroll reporting form go to <http://www.mass.gov/dols/pw>.
- Contractors with questions about the wage rates or classifications included on the wage schedule have an affirmative obligation to inquire with DLS at (617) 626-6953.
- Contractors must obtain the wage schedules from awarding authorities. Failure of a contractor or subcontractor to pay the prevailing wage rates listed on the wage schedule to all employees who perform construction work on the project is a violation of the law and subjects the contractor or subcontractor to civil and criminal penalties.
- Employees not receiving the prevailing wage rate set forth on the wage schedule may file a complaint with the Fair Labor Division of the office of the Attorney General at (617) 727-3465.

For apprentice rates see "Apprentice- PLUMBER/PIPEFITTER" or "PLUMBER/GASFITTER"

Additional Apprenticeship Information:

Minimum wage rates for apprentices employed on public works projects are listed above as a percentage of the pre-determined hourly wage rate established by the Commissioner under the provisions of the M.G.L. c. 149, ss. 26-27D. Apprentice ratios are established by the Division of Apprenticeship Training pursuant to M.G.L. c. 23, ss. 11E-11L.

All apprentices must be registered with the Division of Apprenticeship Training in accordance with M.G.L. c. 23, ss. 11E-11L.

All steps are six months (1000 hours.)

Ratios are expressed in allowable number of apprentices to journeymen or fraction thereof, unless otherwise specified.

** Multiple ratios are listed in the comment field.
