Engagement

Engage business owners & the public on rodent issues

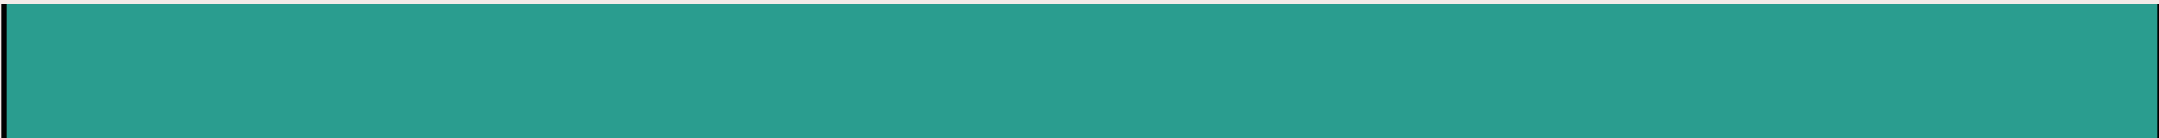

Legal Landscape

Federal

State

Local

Integrated Pest Management

- 
- Sanitation
 - Exclusion/ Prevention
 - Elimination/ Control
- 

Group Discussions

What can we (the Health Department) do to help the residents of Arlington change their behavior toward rodent problems without resorting to pesticides?

What kinds of information or resources would you like to have educate yourself and others about rodent control and prevention?

Thank you!

Arlington Health Department
