Hi David,

The wells were installed today by Vetrano Construction, after all necessary Town approvals, per the specifications of Danna Truslow of Truslow Resource Consulting LLC. The pressure monitors -- MX2001 Water Level Data Loggers from Onset Computers -- were installed by Danna Truslow herself. I met with Danna Truslow on site, and learned how to download the data from the monitors. I will do this on a weekly basis.

Chris

Thanks, Clarissa. Who is doing the installation, and will they provide specs?

Cheers,
David
