Artists **Sonya Quinlan Khan**, **Molly Scannell**, and **TJ Reynolds** explored some of Arlington’s diverse stories with portraits responding to the theme of “Friends & Neighbors.” Each artist chose 3 people who are significant in their’ lives in Arlington: teachers, small business owners, musicians, community leaders, relatives, all essential to the fabric of our community. Molly, TJ and Sonya’s representations of their neighbors, each done in a style entirely their own, come together to remind us that though we look through different eyes, we are all intimately connected and each of us brings something worthy to our collective endeavor of building community. Many thanks to Nilou Moochhala, who designed our title banners and Dan Warren and Arlington DPW for installation support!
